

**SETUP FOR TRAGEDY** might well be the title of the above picture, which, while posed, illustrates a situation duplicated many times during the school term with its obvious disastrous potential. The practice of children running from behind a school bus is hard to stop, say the drivers, yet cars are permitted to pass a stationary bus at 15 m.p.h. This is dangerous they contend and at the present time the school board is preparing to petition the government for an alteration to the Vehicles Act requiring motor vehicles approaching from ahead and behind a school bus loading or discharging passengers, to come to a full stop. The lad in the foreground is Peter Gordon, son of Mr. and Mrs. R. C. Gordon, Naramata Road; next to him is Brian Denton, son of Mr. and Mrs. L. J. Denton, RR 1; and the boy in the background is Tommy Clarke, son of Mr. and Mrs. J. R. C. Clarke, Naramata Road.

## School Bus Driving Is An Education

By **BOB MORRISON**

If you are feeling your years and think you need a tonic to pep you up, bypass the pills and bottled potions and take a ride on the school bus — it's a real elixir.

You would find the enthusiasm of Penticton's younger generation contagious as they pile aboard, a couple at this stop, a cluster at that, waiting for Johnny as he hot-foots it down the road to the big yellow van while mother watches him from the doorstep to see he gets aboard.

**MANY VOICES**

Conversations that began quietly after the first couple of pickups, bubble a little higher at each succeeding stop as friends get together and the words fly thick and fast, punctuated by shrill laughter and the occasional boom of a male voice from one of the "big guys". By the time all the pickups are checked off there are about 50 voices, from the little fellows discussing a stray dog they found yesterday to the senior girls comparing notes on last night's date running together into a whirlpool of chatter that ends all too soon as the bus pulls up to the school.

The primary school route is the best for you to meet all kinds of interesting little people such as the songbird who calls herself Dale Evans, after the well-known radio and TV western songstress who gives the female touch to "The Riders of the Purple Sage". Dale gets on at the first stop and without too much encouragement will live on the trip with a stellar rendition of "How Much is that Doggy in the Window" — complete with authentic barking dog, of course. To the group of eight or nine children who come aboard a stop or so later, she is known as "Squeaky". Dale finds her school mates are a tough audience to play to but in the spirit of good showmanship she goes an octave higher and puts a slightly vicious snap in "that doggy's" bark.

**PAINT JOB**

Further down the road the load is increased by about a dozen, among whom are two serious young men who decided some time ago that they would

Paid Rent Six Years — Should Have Chance To Buy

# Homes Not For Sale Veterans Protesting

## Scrambled Name Quiz Starts In Herald Today

First of a series of weekly contests appears on page two, second section of this issue. The contest is open to all Penticton Herald readers and their families and prizes range from a combination radio to a lady's wrist watch.

Object of the contest is to unscramble the names of Penticton and district firms whose names appear on the page. Three prizes will be won each week and these will be presented at the end of the contest which goes on for six weeks.

Judges will be looking for originality in the entries and, of course, correct lists of unscrambled names. Readers are advised to read the contest rules carefully before mailing their entry to the Penticton Herald.

Prizes are on display at Bryant and Hill Men's Wear, 320 Main street. This week's prizes are a lady's Gruen watch, electric razor and sandwich toaster.

Told Could Do More

## City Trade Board Asks \$950 Grant

Penticton's Board of Trade was advised by Alderman F. C. Christian on Monday that, in his opinion, the board could do more than it is doing to help finance its activities.

## Lions Easter Seal Campaign Starts In City Thursday

Annual Easter Seal campaign, sponsored in Penticton by the Lions Club, gets underway tomorrow and is of one month's duration.

Every householder will receive a folder of Easter Seals valued at one dollar and is asked to make whatever contribution he can.

Proceeds again this year as in other years go to help in the work on behalf of crippled children.

Half of the money collected remains in Penticton.

A brief from West Vancouver regarding extension of the PGE railway was filed without comment at this week's meeting of City Council.

Temperature		
	Max.	Min.
March 10	45.2	22.6
March 11	45.4	22.6
March 12	43.4	21.7
March 13	44.4	21.2
March 14	46.4	26.4
March 15	37.1	28.7
March 16	43.2	32.2

This comment followed upon the presentation of a brief by Board of Trade president, Edgar Dewdney, requesting a grant of \$950.

Alderman Christian compared the financial status of the Junior Chamber of Commerce with that of the Board of Trade. In 1952 the board had \$2,928 in gross revenue, as compared with \$3,490 for the Junior Chamber. In 1953 this difference was further emphasized, the Board of Trade amounting for \$2,940 in gross revenue, while the Jaycees showed their 1953 gross revenue as \$5,981.

"It is my personal opinion that a lot more work could be done by the Board of Trade," Alderman Christian declared.

### MEMBERSHIP DROP

"In what way?" asked Mr. Dewdney.

"Your main source of revenue is membership fees, but I notice there is a drop in membership," replied Alderman Christian.

"The Board of Trade cannot sell tickets for raffles, or put on dances, like service clubs," Mr. Dewdney countered. "The board has to sit back on such things."

Earlier Mr. Dewdney said that some people questioned the usefulness of the board, but that he

Refusal of Central Mortgage and Housing Corporation to sell homes completed in 1948-1949 and rented since that time to veterans was scored by Legion members at the regular Branch 40 meeting, Monday night.

Veterans complain that after paying rent for close to six years they should be given the opportunity to purchase these government-owned homes. Charges have also been made that redecoration and repair work has been refused by government officials, unless the veteran is prepared to pay for the work.

Other veterans have stated that in order to rent one of these homes they must sign a contract which states that the house is in first class condition; a situation which does not exist after occupancy of close to six years.

### 100 HOMES

There are 100 homes involved, located on Kilwinning, Killarney and Kensington streets, built in two blocks of 50 each in 1948 and 1949.

The 100 homes constructed in 1948 were sold to veterans in 1948. Which is the basis of argument by lessees of today who contend that if the Central Mortgage and Housing Corporation saw fit to sell homes in 1948 they had received only two years' rental, veterans who have paid rent for almost six years should be given the opportunity to buy.

Recently, 73 occupants of the 100 homes involved signified their desire to buy if the opportunity was presented.

**NOT FOR SALE**

This information was forwarded by the Legion to Rex Lupton, of the Central Mortgage and Housing Corporation, Kelowna. It brought a reply from Mr. Lupton that at the present time no 1948-1949 projects are for sale. He said the Legion's communication had been forwarded to the regional office of the corporation in Vancouver who, in turn, had indicated to head office, Ottawa, the interest of Penticton tenants in sale of this object.

"The greatest stabilizing influence in any nation is for each person to have a stake in that country," declared P. F. Braut, "no government would deny the logic of that and I think we should exert pressure to see that these veterans are given an opportunity to buy these homes."

**DON'T MAKE SENSE**

J. L. Hooper shared similar sentiment. He was unable to understand why the government appeared so anxious to dispose of the first group of homes and now stubbornly refuses to do

Frank Richter MLA Wants Alternate Military Route

## City Council Wants Engineers To Decide Bridge Controversy

"The bridge is proposed as part of an integrated highway system and decision on the matter should not be subject to local pressures."

It was thus that Acting Mayor E. A. Titchmarsh summed up a resolution approved by City Council, Monday, which called for decision by engineers on the vexed question of whether a bridge linking Westbank and Kelowna, or an east side road or west road, would best eliminate the bottle neck now created by the ferry crossing on Highway 97 at Westbank.

But while people the length and breadth of the Okanagan Valley argue the merits and demerits of a bridge across Okanagan Lake as a solution to the bottleneck on highway 97, Frank Richter, MLA for the Similkameen, has introduced the possibility of another route.

This would divert traffic from the west on the Hope-Princeton Highway at Princeton and also traffic from the south up through the Similkameen to Princeton and on north, via Merritt, and Cache Creek, to join the Cariboo highway to Prince George.

Mr. Richter emphasized that the proposed route would be for military purposes to facilitate movement of men and supplies north in the event of need.

The resolution submitted by Alderman F. C. Christian to city council and approved without discussion, follows:

An whereas there is a serious bottleneck on Highway No. 97 at the Westbank-Kelowna ferry. Whereas there is a serious increasing volume of traffic on this road.

And whereas it is necessary that every effort be made to alleviate this situation.

Therefore be it resolved that the Penticton City Council goes on record as favoring the provincial government having the following possible projects examined by competent engineers for advice and pursuance as to whether there should be a bridge constructed from Westbank to Kelowna or whether a road should be constructed from Westbank to O'Keefe or a road via Penticton, Naramata and Kelowna and that such engineers consider the capital and maintenance costs of the bridge in relation to the capital and maintenance costs of the Westbank-O'Keefe road and/or the road via Penticton, Naramata and Kelowna and such engineers consider the usefulness of these respective routes with particular reference to the military aspect, and that the districts concerned be afforded

(Continued on Page 5)

## NO FOUR-WAY STOP AT WADE AND MAIN ST.

There will be no four-way stop instituted at the intersection of Main street and Wade avenue.

The four-way stop was proposed as a temporary measure during the construction of the Hudson's Bay store, in an effort to minimize the danger created by the covered wooden sidewalk jutting out on Main street.

The department of highways, however, informed City Council in no uncertain terms that a four-way stop would aggravate rather than ease the situation.

Stop signs on Main street would not be readily visible. They would be frequently violated because drivers would not be familiar with the short term change and would not expect stop signs on Main street. Stop signs would result in rear end collisions when vehicles stopped in front of unsuspecting drivers. Stop signs would result in right angle collisions when vehicles on Main street did not stop.

The letter concluded "the suggestion is not an orthodox way of dealing with a short term traffic problem."

"Rather, conclusive," murmured Alderman H. G. Garroch as the letter was ordered filed.

## Red Cross Drive At Half Way Mark

Annual Red Cross drive for funds has reached the halfway point and continues until the end of the month. It commenced March 1.

About \$1,000 has already been turned in to headquarters but no team has as yet reported returns in full.

"We are receiving an excellent reception in the campaign," declared Jack Petley, campaign chairman, "and have received some large donations."

Objective for this district is \$2,000.

## 2,000 Sign Petition

## Liquor Plebiscite All But Assured

In all probability, Penticton people will be voting in the near future on the question of the sale of beer and wine under dining room licenses.

The petition, calling for the holding of a plebiscite here, is almost "over the top," according to a statement made to the Herald today by the Rev. Wesley Wakefield, chairman of the committee that has been circulating the petition.

"The canvass for names, supervised by J. H. Myers, has enrolled as many as 2,000 petitioners. It is announced.

Only a few hundred more names will be required, to secure the necessary 35 percent of the total on the Penticton polling division on the provincial voters' list, which numbered 7,250 in 1952.

"We have no doubt whatever that we shall get those extra names," comments Mr. Wakefield.

Once the petition is completed, it will be forwarded to the chief electoral officer in Victoria.

This must be done before March 31.

The Victoria official will then arrange for the holding of a poll here.

Seven clear days notice will be given, after such notice, during which time eligible voters may get on the list.

The list is of the Penticton polling division, includes the benches, and the West Bench.

The vote on this issue, when held, will be under the 1953 elections act, which means that those in the 19 and 20-year-old brackets may be included.

The question to be decided is: "Are you in favor of the sale of beer, ale, stout, and wine only under a dining room license for consumption with meals on licensed premises?"

(Continued on Page 5)

**EUGENE CONLEY — TENOR** — Direct from widely acclaimed performances as leading tenor with the Metropolitan Opera, the celebrated singer Eugene Conley will be heard in recital on Friday evening, March 19 at the Penticton High School Auditorium under the auspices of the South Okanagan Community Concerts Association.

\$30,000 Cut

## Council Slashes Parks Estimates

Parks Board chairman Alex McNicoll will call a meeting of commissioners to consider a proposed slash of approximately \$30,000 from their 1954 estimates.

City Council tabled a report at Monday night's meeting of their decision to request the parks board to revise estimates from \$83,767 to \$52,500.

At a previous committee meeting of the council of the whole, Alderman F. C. Christian advised that the finance committee had discussed parks board estimates for the current year totaling \$83,767. Of this amount arena costs of \$23,100 had been included.

"In perusing statements of actual expenditures for 1953," Alderman Christian continued, "it was learned that in the arena operation the expenditure had been \$9,048 and parks maintenance \$30,259." And he suggested that a sum of \$50,000 be provided for 1954, or a total of \$4,500 more than was provided in 1953 estimates.

The resolution, moved by Alderman Christian and seconded by Alderman H. G. Garroch reads: "That the parks board be advised that the council would provide for 1954 the total sum of \$52,500 for parks and arena operations and that a revised estimate be submitted by the parks board not later than March 22."

The resolution carried.

Parks Board chairman Alex McNicoll said later that he was withholding comment, "until a meeting of the parks board is held, probably later this week."

## Impaired Driving Charge Quashed

A Penticton woman who pleaded not guilty to a charge of impaired driving was acquitted by Magistrate G. A. McLelland on Monday after a trial that lasted most of the day.

She was charged following an accident on March 6, when the car she was driving collided with a power pole near Churchill avenue and plunged the surrounding area into darkness.

Defense counsel was Gordon Halcrow while Peter Vanderhoop appeared for the Crown.

## H. R. HATFIELD NOMINEE FOR UBC SENATE

Pioneer Penticton resident, H. R. Hatfield, has been nominated to the senate of the provincial university and a publicity campaign on his behalf is being planned among the alumni.

This was revealed at a meeting of UBC alumni from Penticton and Summerland held last Friday at the home of Dr. and Mrs. T. H. Anstey, Summerland Experimental Station.

Board of governors and senate of UBC are elected by the graduates. Therefore, nominees are proposed by the graduating body. There are 15 elected members and of this number only three are from the interior. Last person from this district to serve on the senate was the late Dr. B. C. Palmer, superintendent of the experimental station.

Balloting is carried out through the mails and is done secretly.

At Friday's meeting, subsidization of student residences was again discussed and it was learned that the Summerland and Trail resolution on this subject has been given to a committee on building.

Color slides of the arboretum at Agassiz were shown by Dr. Anstey while Ewart Woolliams, president of the alumni, showed films of Yellowstone National Park.

## SENIOR HOME PLAN DEVELOPS

City Council has agreed in principle to a plan which would convert the old hospital building into a home for senior citizens.

This information was imparted to the Herald this morning by members of the committee whose next step is to seek approval to incorporate into a society which will be known as Newhope Benevolent Society.

At present, there are six committee members, L. B. Boggs, Rev. G. F. Tasker, M. Malloy, D. E. Godkin, C. W. Wright and Clifford Moore.

The proposed society would be a non-profit, charitable organization to make a home for senior citizens. And the committee has declared a policy of giving priority at the home to elderly people from this district.

Renovations at the building would have to be carried out according to specifications laid down by the fire marshal.

Penticton firefighters answered one call during the past week. They responded to an alarm for an overheated oil burner on Killarney street. There was no damage.

**RUSHING THE SEASON?** Maybe just a little but our bathing beauty, basking in the sun on the beach at Skaha Lake has the right idea as she hands over a big cheque (in more ways than one) to "Penticton Business". This lovely Miss represents Penticton's two and a half million dollar annual tourist industry and her timing, in one respect, is just right as the Penticton Tourist Association is now gathering funds to give greater publicity to this city as the ideal vacation land.

## Trade Board Asks Grant

(Continued from Page One)  
did not believe council took this  
view. He compared the assistance  
given by Vernon and Kelowna  
City Councils to their respective  
boards and he intimated that  
with council backing the board  
could step up its activities.

### STATISTICS

"It's true that membership is  
more or less static and I believe  
it will remain so until our ac-  
tivities increase," Mr. Dewdney  
stated.

"The Board of Trade acts as a  
buffer. It is generally recognized  
as next to the governin body.  
Through its widespread organiza-  
tion it is able to bring matters to  
the attention of governments,"  
said Mr. Dewdney.

The board president listed some  
of the accomplishments, in whole  
or in part, achieved by the boards  
of trade in the South Okanagan.  
The new customs building at  
Osoyoos, 24 hours customs ser-  
vice, the Hope Princeton high-  
way, the Penticton board's ef-  
forts to persuade the Helix Com-  
pany to locate in Penticton. "We  
prepared a very attractive bro-  
chure which took hours and hours  
of members' time."

### MAN POWER

"We are in fact supplying man  
power for promotional work,"  
Mr. Dewdney said.  
"I still think the Board of  
Trade could be a more active  
association," reiterated Alderman  
Christian.

J. J. Van Winkelaar stood up  
to say that the board's mem-  
bership did fluctuate, but the size  
of the membership depended in  
large measure upon how the  
Board of Trade was regarded in  
the community. "Respect and co-  
operation from the City Council  
helps a lot. Council's support will  
enable us to do a better job,"  
Mr. Winkelaar concluded.

Acting Mayor E. A. Titchmarsh  
commented that submission of  
the board was a timely one as  
council was giving the question  
of grants consideration, but he  
pointed out that the incidence of  
taxation in this city is high and  
that council has to cut its coat  
according to the cloth.

It's not so much a question of  
a grant, but of the amount, de-  
mands are increasing every year,  
said Alderman Christian to close  
the debate.

### BOARD'S BRIEF

The board's brief follows in  
full:  
In approaching the City Coun-  
cil for assistance for the Board  
of Trade, we herewith submit a  
budget which reflects as nearly  
as we can, the expected revenue  
and the minimum of ordinary  
inescapable expenses.

"The usefulness of the Board  
during the past few years had  
been curtailed to a stage where  
some have even questioned  
whether or not it is worth while  
to continue its existence. We do  
not believe that members of the  
City Council take this view, since  
in every city and community,  
the Board of Trade (or Chamber  
of Commerce) is regarded as  
next to the governing body, the  
most essential organization serv-  
ing the citizens. And with very  
few exceptions, financial assist-  
ance is annually provided for  
these bodies. Our neighboring  
cities in the interior of British  
Columbia, wherein conditions  
are similar to those in Penticton,  
offer convincing examples both  
of the interest their councils take  
in the Boards of Trade, and the  
effective work those Boards are  
doing when so encouraged. Pen-  
ticton has as many community-  
minded citizens, equally capable  
of studying the problems of de-  
velopment as have our neigh-  
bors. Should not our City Coun-  
cil benefit in like manner as  
others? And should not the citi-  
zens be encouraged to interest  
themselves in the affairs of the  
City and its relations with its  
neighbors? And how can these  
benefits be better or more ef-

onomically obtained, than by a  
live Board of Trade.

### REVENUE

Repeated efforts have been  
made to enlarge the membership.  
It appears to be almost static,  
and will remain so until more  
activity of the Board can be  
shown. The dues have been at  
various times revised, and at  
present seem to be as high as  
members think reasonable. Con-  
sequently, we cannot count upon  
any noticeable increase of mem-  
bership revenue. It compares  
favorably with that of neigh-  
boring cities.

### RE EXPENSES

What are shown are simply  
the minimum outlays necessary  
for keeping the organization  
alive. It provides nothing for es-  
sential work which the Board  
should be attempting from week  
to week.

Hundreds of letters from far  
and wide come to the Board ask-  
ing for information re this city  
and the surrounding district. We  
have no printed brochure of any  
description which may be sent.  
It is definitely impossible for  
the secretary to answer any, ex-  
cept the most urgent ones by  
typed letter. We suggest that  
for even a few thousand of a  
modest pamphlet, at least \$750.00  
should be provided.

### ENTERTAINMENT

Many important visitors pass  
through Penticton annually. In  
some cases it would pay hand-  
somer if some special attention  
were given. A modest sum should  
be available for this purpose. We  
suggest \$200.

We cannot here discuss the  
many avenues of usefulness open  
to a live Board of Trade. We  
take it that the Council is well  
aware that it can be a reliable  
sounding board of public opin-  
ion on any proposed project or  
matter of policy. Where research  
is necessary, its services can be  
invaluable.

Therefore our Board of Trade  
does not come to this City Coun-  
cil in the attitude of beggars for  
a handout, but as an established  
and recognized organization,  
older in service than even the  
Council. It has been and can con-  
tinue to be of great value to the  
community. We know that the  
citizens generally look upon the  
Board of Trade as a valuable in-  
stitution, and expect it to con-  
tinue its usefulness. It will do so  
provided that it receives the en-  
couragement and goodwill of  
the City Council, as well as the  
financial aid comparable with  
that given to the Boards in our  
neighboring cities.

In this connection it should not  
be remiss to remind the Council  
that this Board of Trade has  
done what other Boards of Trade  
have not. It has erected a sub-  
stantial building providing taxes  
to the City of Penticton of ap-  
proximately \$2,000 annually. This  
amount is over twice as much  
as the sum which we ask as a  
grant from the City Council this  
evening; namely the sum of \$950.  
We are, in effect, requesting the  
City Council to pay us a grant  
of less than one-half of the taxes  
which we pay to the City of Pen-  
ticton.

### DECISION RESERVED

Judge M. M. Colquhoun re-  
served decision on an appeal  
against assessment on his prop-  
erty brought by Frank Czezel.  
The property is located on Kin-  
ney avenue and is a market gar-  
den farm.

Originally assessed at \$1490  
this figure was lowered to \$1350  
when City Council sat as a court  
of revision but Mr. Czezel main-  
tained this amount was still too  
high in comparison with sur-  
rounding property.  
Judge Colquhoun visited the  
farm yesterday before announc-  
ing that he was reserving deci-  
sion on the appeal.

## Editorials

### Economic Poison

Hidden taxes are a poison in the economic system.

Such was the theme emphasized last week in a hard-hitting editorial in the Kelowna Courier.

The Courier, published in Premier Bennett's home city, left no doubt as to its opinion of the five percent sales tax.

Higher costs and inflated prices are predicted in this editorial, which will be of interest to Penticton readers. It is reproduced in full, as follows:

The Bennett government in increasing the sales tax from three to five percent and eliminating the hospital premiums has abandoned the direct taxation principle of financing for this scheme and substituted the hidden tax method, on the principle, apparently, that what the people do not know will not cost votes.

It is rather ironical that a matter of three years ago Mr. Bennett was furiously arguing with his then colleagues of the Coalition Government about the imposition of a three percent sales tax, claiming that it would defeat the government, and now, but a few months later, in his first budget speech, he is sponsoring an increase in that tax from three to five percent. It would seem that expediency won the argument.

Mr. Bennett, of course, attempts to justify his change in attitude on the sales tax by pointing out that it will be much less costly to collect than the insurance premiums. He also points out that it will eliminate many of the "sores" engendered by the scheme in that it will ensure that all will pay something towards the scheme, which certainly has not been the case hitherto. In these claims he is justified, but he is also claiming that ninety percent of the people of B.C. will pay less toward the upkeep of the BCHS under the new tax than they do under the present premium plan. Frankly, we consider this just so much political propaganda as we do not believe it has any basis in fact. Figures that have been produced to substantiate the claim are utterly unconvincing.

This newspaper is opposed to hidden taxes in principle. It believes the taxpayer should know when he is paying taxes and how much those taxes are. It believes that if hidden taxes were eliminated entirely the man on the street would take a deeper and more realistic interest in government.

### Going, Going, Gone?

Penticton's board of trade has done the proper thing in extending an invitation to the premier to come here, at some convenient date, to speak on the Kelowna bridge project.

It wants more information, and at first hand, and it wants to ask questions about this development and alternate ideas for solving the Okanagan traffic problem.

The premier should accept this invitation. He cannot do so in the early future, with the legislature's duties so heavily laid upon him, but he should come here as soon as he can. If he does not do so, in reasonable time, any hope of securing valley-wide unanimity in urging the bridge construction will then meet an early death.

We rather sympathize with Mr. Bennett's position in the matter. As the premier he cannot very well become a public propagandist for the bridge. As the member for South Okanagan, he is harpooned by political considerations which have always bedeviled this issue. Yet, at the meeting of the Kelowna board earlier in the year, he did raise the question, and quite clearly intimate that if the valley spoke with a united voice for it, the bridge was a likelihood. He gave certain statements, offered data, made himself available for the answering of questions. And then left it at that. If he was willing to do this at Kelowna, we think he should be willing to do the same in Penticton, where the whole question could surely be expected to provoke more complex reactions, and where a discussion of the matter by the premier would therefore be the more appreciated.

The whole thing, of course, has become more confusing with the latest voice in the discordant chorus, Frank Richter, the member for Similkameen, has apparently suggested that future road programs include some sort of baffle to the west of here, routing traffic north in that way and more or less short-circuiting the Okanagan.

He was giving some attention to military consideration, and his remarks, in one way, may seem to have cogency. Yet we have always felt that completing the main Okanagan highway on the west side beyond Westbank would some day give the through route that would satisfy the military, while at the same time it helped to preserve the artery of commerce for the main bulk of residents in the interior.

We therefore think that the local board would also be well advised to ask their own member, Mr. Richter, to come

The fundamental objection to hidden taxes such as the sales tax is that they impose artificially high costs on industry and commerce. In British Columbia, for instance, we pay the federal sales tax of ten percent and, soon an additional five percent provincial sales tax, which means an overall sales tax of 15.5.

In increasing the sales tax this province is actually moving away from the current thinking on hidden taxes. New Brunswick has reduced its sales tax from four to three percent while the Treasury Secretary Humphrey of the United States has declared in favor of a selective reduction in sales taxes in his country. He recognizes that it would be good business to make such reductions in sales tax as would be most likely to benefit lagging business, the treasury in that case picking up revenue from wider sales in compensation for the lower rates. It goes without saying that any cut in hidden taxes means a healthier economy.

The current trend in automotive sales is now to show the basic price, plus dominion and provincial taxes. Most investigators are unpleasantly surprised at the amount Ottawa and Victoria impose. The new increase of two percent will cost the average car purchaser an additional fifty to sixty dollars.

It is unfortunate that Canadian merchants have not followed the lead of United States stores in displaying basic prices "plus federal and provincial taxes" in their advertising and on their sales floor. This newspaper believes that retailers would be providing a needed service the taxpayers of this country if they did so.

But whether publicized or not, these hidden taxes are a poison in the economic system. They come to a head in higher costs and inflated prices. And they hurt more in a time of business adjustment, such as right now. Production costs in British Columbia are the highest in this country and, probably, on the continent. In several of our major lines we have found ourselves unable to compete in world markets because of our higher costs. And now we are about to deliberately increase those costs by an additional tax of two percent. It may be a shrewd move to rescue the government from its hospital insurance imbroglio, but, economically speaking, it just doesn't make sense.

before them too, to reveal what he has in mind for our future hereabouts.

The Herald cannot agree with projects that disregard the population, and channel traffic only with an eye to the speedy efficiency of the theoretical long-distance traveller who is always going from the one spot to somewhere else very far off. We think efficient highways, so far as possible, should also serve the taxpayers by bringing as much traffic as possible to their doors. After all, the one reason we're all talking so much about the forthcoming larger traffic through the interior is because we hope to add to our economy in this way. We don't want the travellers high-balling through to their remote destinations. When congestion becomes obvious it should be side-tracked. But only then, still leaving the traveller as close to the main centres as he can be left.

This is why we cannot agree with Mr. Richter's idea, if we have it right at this time of writing.

It is for the self-same reason, however, that we would like to see Highway 97, in steadily-growing improvement, serve the built-up communities along the Summerland-Westbank route, and thence north through the well-populated Kelowna-Vernon section on the opposite side of the lake. The premier's idea is that a bridge will make all this possible, or at least that was what he emphasized at the Kelowna board meeting.

The Herald cannot disregard this proposal as a "way out" by which the conflicting proposals for Okanagan traffic can be straightened away for the immediate future. But there is no disguising the fact that the project has received more opposition than support hereabouts, and it will continue to do so unless and until Victoria's position in the matter is laid before local people with more authoritative emphasis.

Most of all, Penticton people seem to resent being acquainted with the details in some sort of remote control way, through Kelowna's board meeting. There has been no meaningful approach whatever to Penticton. The district's own member, Mr. Richter, has appeared on the scene only to go off on a tangent.

The Herald has no regrets for having befriended the proposal in its early presentation. We think it merited such a reaction. And still do. But we do regret the unsure footing on which the public presentation to this city has been based.

The board's suggestion, of asking the premier to come here, therefore must be regarded as a helpful one.

## Letters To The Editor

Letters to the editor must carry the name and address of the sender. Pen names will be accepted for publication but preference will be given to letters published over the writer's own name.

Editor,  
Penticton Herald.

### FOR THE BRIDGE

May I, as a former resident of Penticton express an opinion on a subject that appears to have some Penticton people all mixed up?

I am referring to the controversy in some quarters over whether or not to accept Premier Bennett's offer to build us a bridge across the lake at Kelowna. I must confess that I am completely unable to understand why there should be any argument about whether to accept the offer or not to accept it.

Our highway system in the Okanagan has improved vastly since I first took up residence in Penticton when a return trip to Oroville in one day and made in a brass bound model "T" Ford was a noteworthy event.

Naturally these improvements have cost huge sums of money. Each additional piece of highway built takes a large slice of our tax money.

Mr. Bennett has offered all of us here in the Okanagan at no cost to us a long-needed improvement of our highway system. An improvement which will remove a serious bottle-neck and at the same time save the province a tidy sum in highway operational expenses.

Knowing every inch of Penticton and area as I do I fail to comprehend why anyone in Penticton — except possibly one with a personal motive — should agitate for an east-side road.

Such a road must necessarily completely by-pass the business section of Penticton. On that point there can be no argument as it definitely would have to be routed from a point on the southern outskirts of the city and pass somewhere near the new hospital up over the east benches to a connection with the existing Narman road.

How then, is Penticton to benefit from an east-side road even if it were possible?

Remember too that an east-side road would leave all the west-side communities stranded high and dry and also by-pass Kelowna as well.

Can you picture any government endangering its political life by endorsing the construction of such a highway?

"Nuff said," let us grab this golden opportunity while it is offered and with the least possible delay.

Peter Doherty,  
Kelowna, B.C.

The Editor,  
Penticton Herald.

We, the Boys' Hi-Y Club, would like to express our deepest thanks and appreciation for the excellent publicity that the Herald gave us during our recent "Tools for Korea" drive. It was your help in advertising that helped make the drive the success that it certainly was. Thank you very much.

B. Bernback,  
Secretary, Boys' Hi-Y.

## NEWS FROM

## Victoria

By J. K. Nesbitt

VICTORIA — The combined opposition is evidently ganging up to vote against the five percent sales tax, in an effort to defeat the government on the floor of the House.

But, if Social Crediters hold firm, as undoubtedly they will, the government will be safe. Without Mr. Speaker, the government has an overall majority of seven.

So important, so vital a matter as the five percent sales tax would never have reached the Legislature unless it had been well argued out behind the locked, guarded doors of the S.C. caucus room.

Governments never take a chance on a defeat on the floor of the House. The defeat of the government last year came only because there were more MLAs against the government than supporting it.

So, it's quite safe to say, at this moment, that the government will not be defeated this session.

It was, interesting to watch, and listen to Premier Bennett as Minister of Finance presenting to the House B.C.'s biggest budget. What tricks the fates of politics play? There stood that remarkable politician, W. A. C. Bennett, now B.C.'s top dog; yes, there he stood in the seat of B.C.'s mightiest, and it seemed but yesterday he sat in opposition to the Coalition government which he once supported.

Looking at his record of the last 12 years, Mr. Bennett's political enemies say that the Premier can't possibly know his own mind, what with all the jumping around he has done; still, no one can deny he got to the very top in quite a breath-taking fashion.

There are no Social Credit financial theories in the first Bennett budget. Oppositionists now want to know — how come? Surely, they say, if this is a Social Credit government, surely there should be some S.C. financial theories included. But no, it's quite an orthodox budget, say the orthodox financiers, quite as orthodox as John Hart or Herb Anscomb themselves would have presented. Mr. Hart, of course, would never have had anything to do with sales tax, and Mr. Anscomb would never have re-

duced taxes. But, other than those small items, it was quite an ordinary budget — though a big and fat one.

While Social Crediters know full well there aren't any Social Credit financial theories in the budget, they'll say there are Social Credit dividends in it. They'll call the wiping out of the sales tax on children's clothing and shoe sales a tax dividend; another dividend, they'll say, is the cut in the amusement tax.

It was Mrs. Lydia Arsens who started this style of finding Social Credit dividends floating about all over the place. She said one day that family allowances are really a Social Credit dividend; that the Liberals stole the idea of family allowances from Social Credit. This so astonished the Liberals they couldn't think of a link to say.

Leader of the Opposition, Arnold Webster, must be the most honest politician in B.C. He insists on giving credit where he thinks credit is due. He refuses to play politics. Thus it was that the day he spoke on the budget he insisted on saying that when Social Credit took over, the financial cupboard wasn't bare. This was a bit of a shock to Premier Bennett and his cohorts, who have insisted that it was.

Mr. Webster, an impartial observer in the row between Liberals and S.C.'ers, came up with the opinion that the Liberals of a fair sized surplus, so fair sized that it was fairly plain sailing for Social Crediters when they got to be the government.

Social Crediters looked pained at hearing this, and some of Mr. Webster's own CCF'ers were a bit pained, too. Most CCF'ers, you see, are just as anxious to get rid of the Liberals as are all Socials. Yet, there stood Mr. Webster saying that the Liberals had done a pretty good job. "B.C. wasn't bankrupt when Coalition collapsed," said Mr. Webster, and then he paused, in some surprise at what he found himself saying. "Perhaps I'm immature," he said, but then his honesty got the better of him and he said: "Past governments were not as inefficient and ruinous as we have sometimes claimed."

## FOR SALE

## LEGAL

AUCTION SALE Timber Sale X80123

There will be offered for sale at Public Auction, at 11:00 a.m. on Friday, April 2nd, 1954, in the office of the Forest Ranger, Princeton, B.C., the License X80123, to cut 199,500 cubic feet Fir, Spruce and other species sawlogs situated on an area of Granite Creek, 125 chains south of Lot 789, Y.D.Y.D. and 14 miles south of Coalton.

Three (3) years will be allowed for removal of timber. Provided anyone unable to attend the auction in person may submit tender to be opened at the hour of auction and treated as one bid.

Further particulars may be obtained from the Deputy Minister of Forests, Victoria, B.C. or the District Forester, Kamloops, B.C.

"FOUND DISTRICT ACT" Pursuant to the provisions of Section 11 of the "Found District Act", Chapter 250, B.C.E.C. 1948, notice is hereby given of the appointment of E. H. SELBY of BARTLETT DRIVE, West Bench, Penticton, B.C., as pound-keeper of the West Bench Pound District.

The location of the Pound Premises is on Lot 47, Plan 5817, Kamloops Land Registration District.

Minister of Agriculture, W. K. Kiernan, Department of Agriculture, Victoria, B.C., March 12, 1954.

## Bridge

(Continued from Page One)

the opportunity to consider and review all such costs and data before decision is made by the provincial government and that copies of this motion be sent forthwith to the premier of the province, the minister of public works, the chief engineer of the province of British Columbia, the member of the legislature for Similkameen, South Okanagan and North Okanagan ridings, and the chairman of the special bridge committee in Kelowna.

BE PREPARED And speaking to the legislative assembly at Victoria last week Mr. Richter said:

"I must bring up a subject that we, as citizens, do not like to have to think about, but due to the fact that we must deal with human nature, and at all times maintain a defence force, be prepared for invasion.

JOIN ALASKA LINK "After discussion with one of the Federal Congressmen from the State of Washington, who showed much concern regarding an alternate highway link for military purposes to join with the network of the Alaska highway, I present these views.

"I would suggest that the route from the Port of Chupaka, on the International Boundary, through the Similkameen to Princeton, north to Merritt, Spence's Bridge and Cache Creek, where it would join the Cariboo Highway to Prince George, thence on to the Alaska Highway. I suggest that this be considered as a possible military highway.

"This route would cut off about 50 miles distance and would not present a major construction problem, as long distances of this route are already of a high standard and I only ask that the short stretches that are not brought up to high standard be considered in this light.

"This alternate route would provide a means for moving large amounts of army munitions and supplies, without having to subject the more heavily populated centres, such as Princeton, to the hazard of such movements which would at all times be subject to attack.

"I would ask this government to give serious consideration to my proposal of bringing improved sections of this north-south route up to a uniform standard."

## School Bus

(Continued from Page 1)

like the bus painted in a different color.

Maybe blue? Green? Not on your life. A purple bus with pink polka dots is their idea of a smart looking vehicle. Needless to say, that suggestion is still under consideration.

Several weeks ago while the snow still covered the valley a little fellow hung back while the rest surged by him to find a seat. After the bus was in motion he edged up to the driver, Bob Bechtel, and, with hooded brows and deep voice asked, "Do you think we might get stuck in the snow this morning?"

"Not a chance," Bob told him. The expectant face screwed itself up, "Aw heck," he said stamping his foot, "we never have any fun."

And so it goes, day in and day out through the school year, never a dull moment. The big job of transporting Penticton's most precious cargo has been in the capable hands of Carter Bros., now owned and operated by Walter Skermer, for 30 years. Jack and Nathan Carter were the originals and the firm has grown as Penticton progressed until today there are three new buses and a passenger car picking up and returning an average of 650 pupils every day. They cover 250 miles per week in five routes: the city boundary at Naramata, the East Benches, Kale-don, Allen Grove and the West Bench.

GOOD RECORD That represents a lot of driving during the year — in all kinds of weather — and part of Carter Bros. enviable reputation throughout the province is their perfect safety record. This record includes charter work transporting teams to valley points and jaunts to the coast.

But driving a school bus isn't as easy as it might appear, said Mr. Skermer. It takes a man with just the right temperament to sit at the wheel of one of the big yellow vans and keep the bus running smoothly. Such men are Nathan Carter, Bob Bechtel and Everett Tattler.

These drivers and their employer, Mr. Skermer, have the facility of handling young people and there is never a moment on the bus when they don't know who's boss.

FOR VIOLATORS Of course, there always comes the time when disciplinary action must be taken and the system devised seems to fill the bill completely. In the glove compartment of the bus is a pad of violation slips and should a student persist in misconduct, he is given a "ticket" and told to leave the bus — which in some cases could mean a long walk home. Before he can ride to school again, the student must have his or her parent sign the slip and before riding home in the evening it must be signed by the school principal. A tough proposition. Bob Bechtel, one of the most popular drivers, says it is usually only necessary to reach for the violation slips to quell any disturbance.

## 98 PERCENT SUPPORT FOR TOURIST DRIVE

A Friday meeting of the Penticton Tourist Association directors received an encouraging report from John Allison, campaign manager of the current drive, to raise funds for a stepped up tourist publicity program.

With the canvass of Penticton businesses and professional people 35 percent completed, Mr. Allison had this to say about the drive: "The trend has been established. The response to date has been 98 percent and if we are able to maintain this high percentage of support, we will definitely reach our objective of \$5,000."

The campaign, now in its second week, will continue for another week with the idea of giving all business and professional people an opportunity to identify themselves with the project, Mr. Allison said.

"An interesting feature," he continued, "is that the campaign objective of \$5,000 is less than a quarter of one percent of the gross business the tourist industry provides for Penticton, generally accepted as about two and a half million annually."

The directors expressed the feeling that the time is ripe to encourage the tourist to visit Penticton during blossom time. They acknowledged that the opening of the Hope-Penticton highway has placed a greater potential of tourist business within the reach of Penticton during this early part of the season.

PROMOTED Former superintendent of Kel- tie Valley division of CPR at Penticton, L. E. Smith, has been appointed superintendent at Calgary. Mr. Smith served here in 1950 and left following his appointment to the Revelstoke division. He joined the CPR in 1937 as an operator at Revelstoke.

## In And AROUND TOWN

Raymond Stephens, of Creston, spent the weekend visiting in this city with his mother, Mrs. E. V. Stephens.

Miss Buelah Kenney has returned to this city after spending two weeks in Prince George where she was called by the illness of her mother.

### "Screening The Films"

With Barry Freeman

All you good movie fans who enjoy large doses of mystery and intrigue will appreciate the Technicolor show "FLIGHT TO TANGIER" which is showing tonight and Thursday at the Capitol. The setting of the film is the free city of Tangier in North Africa and is a thrilling story of espionage and adventure starring Jack Palance, Joan Fontaine and Corinne Calvert.

"THE STORY OF THREE LOVES" which will be showing Friday and Saturday boasts an all-star cast of Hollywood's top talent headed by Kirk Douglas and James Mason, with one of the highlights of the film being the performance of Moira Shearer, the beautiful ballerina who will remember from "THE RED SHOES" and "TALES OF HOFFMAN".

The film is comprised of three distinct sequences; the story of three strange love affairs, cleverly revealed through a series of flashbacks. Highly recommended.

Something very special for the kiddies this week. This Saturday afternoon Roy Rogers and his horse Trigger will be on the screen at the Capitol in the Technicolor show "TRAIL OF ROBIN HOOD". In order to accommodate all the children the theatre will open early Saturday at 12:45 with two showings of Roy Rogers at 1:00 and 2:45 p.m.

Showing on the Capitol screen next Monday, Tuesday and Wednesday is "LATIN LOVERS", the Technicolor picture filmed in Rio De Janeiro which tells the story of a rich American girl (Lana Turner) who falls in love with a Brazilian playboy (Ricardo Montalban). It's a sizzling combination. Some really fine South American music and dances to be seen and heard.

P.S.—If you are wondering why all the "love" pictures so suddenly, it's just that spring is here and like all other young (?) men my fancy has turned that way.

Mrs. Jessie Upton, grand guardian of the British Columbia grand council of the International Bethel of Job's Daughters, was a visitor to this city this week. She made her official visit to the Penticton Bethel No. 16 at its meeting in the Masonic Hall last evening and on Monday evening she met with the five elective officers of the Bethel, and the council at the home of Mrs. R. B. Cox, guardian council.

J. Russel Wells returned to Penticton on Friday after spending several days on a business visit in Vancouver.

Mrs. W. A. Rathbun will be hostess at the March meeting of the Kiwanis Club to be held on Tuesday evening at her home, on Vancouver avenue.

Mr. and Mrs. Warren Rolls have returned to Penticton after visiting for a week in Victoria with their daughter, Miss Margaret Rolls, who is a student at the Provincial Normal School in the Island city.

Here from Ottawa to visit with Dr. and Mrs. Myles Pleasch are the latter's parents, Mr. and Mrs. E. G. Cameron, who plan to remain in Penticton until the first of next month.

### Ladies' Choir To Present Concert, Pantomime Here

Rehearsals are in the final stages for the combined concert and dramatic presentation to be given next Wednesday evening by the Penticton Ladies' Choir under the sponsorship of the Women's Federation of the United Church.

Owing to former commitments by the members of the cast it has been found necessary to make some changes in roles assigned for "King Robert of Sicily," the production arranged to follow the concert portion of the program. The role of King Robert in the dramatization of Longfellow's poem will be by John O. Braine, replacing Robert Lyon. Another change will be effected when J. A. M. Young takes the part of one of the men-at-arms, formerly to be portrayed by Thomas Walker.

Madge Gordon will join Queenie Bowsfield and Grace Adouast as court ladies in the forthcoming program.

Featured guests artists in the concert will be violinist, William Hendry, and pianist, Robert Kykendall, University of Washington music students.

Monica Craig Fisher is musical director and Elsie MacCleave is the producer for the Wednesday night performance which commences at 8 p.m.

## Talented Student From This City Appearing In College Stage Production

A talented young student of the drama at Stephens College, Columbia, Missouri, Miss Rosemarie Meyerhoff, daughter of Mr. and Mrs. Henry A. Meyerhoff, of this city, has been accorded wide acclaim for her acting abilities while appearing in a number of leading roles on the stage of the Playhouse, the college theatre.

"Rosemarie Meyerhoff is a beautiful Desdemona. She has the noble features of a princess and acts her role of an innocent, rather naive woman with great sincerity" were among many complimentary remarks by dramatic critics following her performance in the Shakespearean tragedy "Othello" last week at Stephens.

Just prior to the current production of the Shakespearean masterpiece, Miss Meyerhoff was cast in the role of Gay in "You Can't Take It With You". This Pulitzer prize winning production of George Kaufman and Moss Hart has had a three-week run at the Playhouse, where male professional actors are permanent members of the company, appearing opposite Stephens College students of theatre arts. The unique continuous theatre operation at Stephens provides opportunity for students to learn all phases of the theatre, including production, lighting, costuming and properties as well as acting.

Miss Meyerhoff, who is a first year student at the American college, has also received considerable recognition for her dramatic talents while attending coast schools in British Columbia. She made several appearances last summer with the Lancaster Theatre Company while the group was in Penticton presenting "Theatre by Starlight".

### Table For Vestry Of United Church Here

A library table purchased for the vestry of the Penticton United Church was on display at the regular meeting of the Evening Circle of the Women's Federation of the church held last week in the church hall. The beautiful table is one of the several pieces with which the circle plans to furnish the vestry as its main project of the current year.

Discussions at the meeting conducted by president, Mrs. E. L. Boulton, centred around final plans for the annual spring rummage sale to be held on April 3 in the Oddfellows Hall. Mrs. Herb Geddes and Mrs. C. E. Roney are co-conveners for the forthcoming sale.

At the close of the business a most interesting and instructive address was given by Miss Dorothy Britton, dietitian at the foods laboratory at the Dominion Experimental Station, Summerland. She centred her talk on the new fruit pie fillers currently under experiments at the farm, and displayed an apple pie made from the product.

PICTURED ABOVE is a talented young dramatic star, Miss Rosemarie Meyerhoff, who is receiving wide acclaim for her performances in several leading roles at the "Playhouse", Stephens College, Columbia, Missouri. Miss Meyerhoff, a first year student at the American college, is the daughter of Mr. and Mrs. Henry A. Meyerhoff, of this city.

### Appreciation By P-T-A For Support At Bazaar, Tea

The local high and elementary schools' Parent-Teacher Associations are most appreciative of the fine and generous support given by the parents and members of the community at the bazaar and tea held Wednesday and Friday afternoons during Education Week. The proceeds from these events will be used in several ways, the provision of a daylight screen and films for use in the elementary schools; the purchase of a set of scales for the elementary school nurse's office; providing junior and senior high school citizenship awards and contributions to the school lunch fund.

The tea Wednesday was under the convenship of Mrs. F. Volkman, who was assisted by Mrs. F. Kay, Mrs. H. Donald, Mrs. J. Bowen-Colthurst, Mrs. J. Stapleton, Mrs. O. MacInnis, Mrs. R. Balke, Mrs. Lyall Charnick, Mrs. J. Merrick, Mrs. D. Southworth, Mrs. P. McPherson and Mrs. A. Schell.

The bazaar was convened by Mrs. J. Churchill and Mrs. A. Volden. In charge of the home cooking booth was Mrs. F. Lucina, assisted by Mrs. W. B. Pollock, Mrs. G. A. Hockley and Mrs. Leslie.

Mrs. D. Murley and Mrs. G. A. Clarke were in charge of the sewing booth, while Mrs. Bill Kent and Mrs. R. Main looked after the sale of home made candy. Canned fruits and vegetables were sold by Mrs. F. Preddy, while Mrs. Ed Brittain, assisted by Mrs. J. Ferguson and Mrs. E. Anderson, were in charge of rummage and novelties.

Presiding at the tea table on Friday afternoon were Mrs. E. Hyndman, Mrs. C. S. Birch, Mrs. H. D. Pritchard and Mrs. H. B. Morley. Convener for this affair was Mrs. Hugh Cleland, who was assisted by Mrs. E. W. Unwin, Mrs. H. Smith, Mrs. J. D. Southworth, Mrs. W. G. Gay, Mrs. F. Preddy, Mrs. E. Morgenson, Mrs. Bill Kent and Mrs. R. Cox.

Acting as servers were members of the Y-Teens club of the high school, under the able direction of Miss Peggy Weaver and Miss Lorraine Cox.

General Convener for these three affairs sponsored by the P-T-A, was Mrs. W. G. Gay.

If the death rate today from TB was the same as it was 50 years ago in Canada, about 30,000 would die from TB every year. Instead, less than 2500 Canadians died of TB in 1952.

450 Main St. Phone 5638

At the regular meeting of the SPCA last Wednesday in the Red Cross Centre, plans were made for a rummage sale and homecooking table on May 8 in the KP Hall. The society will feature a supply of bedding plants at the sale.

David Davenport, a student at the University of British Columbia, will arrive in Penticton tomorrow to spend the weekend with his mother, Mrs. Marion Davenport.

## Calgary Woman Praises Zero

"I find ZERO simply wonderful for washing all my woollens," writes a Calgary woman. "There's no shrinking or matting when you use ZERO Cold Water Soap. 50c package good for dozens of washings. For Free Sample write Dept. 1, ZERO Soaps, Victoria, B.C."

Summerland elementary school teacher, Miss Ruth Dale, recipient of the Reid Johnston "Good Citizen" cup award for 1954. The presentation was made to Miss Dale, member of a pioneer Okanagan Valley family and teacher in Summerland for the past 36 years, by former Reeve C. E. Bentley, at the annual meeting of the Summerland Board of Trade on Thursday evening in the school auditorium.

## Daffodils From Victoria Decorate Tables For Tea

Penticton Senior Hospital Auxiliary has received many compliments on the success of its annual St. Patrick's Day tea held on Saturday in the Canadian Legion auditorium.

The hall and the tea tables were beautifully decorated with daffodils, forsythia and ferns under the direction of Mrs. A. A. Ship-ton assisted by Mrs. Barbara Jackson. The daffodils and fern were sent from Victoria for the occasion by Mrs. Jackson's sister.

Mrs. D. H. Tully, president of the auxiliary, received the many guests during the afternoon while those presiding at the tea table were Mrs. C. Oscar Matson, Mrs. John Bowen-Colthurst, Miss Joan Appleton, Mrs. Neil McElroy, Mrs. Paul Sharp and Mrs. H. B. McGregor.

Servitors were Mrs. J. Collett, Mrs. G. B. Latimer, Mrs. Carl Nerby, Mrs. H. G. Garloch, Mrs. Harry Smith, Mrs. Lyall Chambers, Mrs. Hugo Emanuele, Mrs. E. E. Johnson, Mrs. H. W. Corbett, Mrs. A. Earl Wells, Mrs. F. Hoye, Mrs. Jackson and Mrs. J. Lindberg.

The sale of homecooking was most successful under the supervision of Mrs. G. M. Davis assisted by Mrs. Harold Clarke and Mrs. Leighton Travis.

A sum of ten dollars was realized from the attractive cake donated by Mrs. Latimer and raffled at the door.

The baby booth under the care of Mrs. W. B. Roath, Mrs. H. H. Whitaker and Mrs. J. A. Westcott had a successful afternoon selling many lovely hand-knitted baby garments. Mrs. Graham Knight assisted by Mrs. J. T. Langridge was in charge of the tickets.

Sandwich and cake plates were arranged by Mrs. Gordon Harris assisted by Mrs. F. L. Freddy, Mrs. E. S. Bearecroft, Mrs. S. H. Woods, Mrs. H. W. Smith, Mrs. Archie Ford and Mrs. E. W. A. Cooper. Mrs. Tony Walker was in charge of replenishing the sugar and cream containers and Mrs. H. P. Barr, the tea.

## Taxpayers Point Of View Expounded In Address By Mrs. Burtch, School Trustee

"Schools from the Taxpayers Point of View" was the subject of the interesting and informative address given by Mrs. C. S. Burtch, Penticton school trustee, at the March meeting of the Women's Institute held last week in the Red Cross Centre with president, Mrs. John Bowen-Colthurst, occupying the chair.

Mrs. Burtch gave a comprehensive description of the work of the board of education, stating that the land and buildings owned by it are worth \$1,600,000, which includes Naramata and Kaleden. There are 1,000 students in the high school and 2300 in the primary and elementary departments with 83 teachers and a payroll of \$333,364 which also includes the salaries of 15 janitors.

The speaker also told of the need for more classrooms since four grades are meeting in basement rooms. She spoke of the cafeteria with which she has been closely connected, and to which she has contributed a great many hours in their development. Various other phases such as health services, bus transportation, school boundaries were explained.

The newest venture in the field of adult education, that of the night school, and its many interesting courses, especially caught the attention of her audience as several of its members attend the extension department classes here.

Business discussions at the meeting, attended by 30 W.I. members, centred around numerous forthcoming projects. Mrs. James Meldrum consented to convene the Bake Goods Sale on Saturday afternoon at Cliff Greyell Radio and Appliance Shop on 384 Main street.

Arrangements were made for the district W.I. rally to be held in the Penticton United Church on May 4. Mrs. Guy Brock will convene the refreshments. Mrs. Harry Edwards will be in charge of the handicraft display which will include the rugs and quilts which took prizes at the Pacific National Exhibition, as well as other articles made in this district.

A committee was appointed by Mrs. Bowen-Colthurst to plan the quilt to be made by the institute members for the 1954 session of the P.N.E.

Mrs. R. L. Cawston will represent the W.I. on the committee in charge of the forthcoming Drama Festival, and the tea collection was given towards the purchase of a sewing machine for the use of women in India.

A stuffed elephant toy, made by Mrs. Edwards, was on display at the meeting. This will be sent to the contest for stuffed toy animals being conducted under the handicraft convener of the institute. The winning entries will be held for display at the convention to be held by the Women's Institutes at UBC in June and later be forwarded to the Queen Alexandra Solarium at Victoria.

Following adjournment of the meeting, tea was served by Mrs. V. B. Robinson, Mrs. Charles Oliver, Mrs. Guy Brock and Mrs. Graham Kinead.

**Social Evening, Films Planned For Art Club**  
The Penticton Art Club will hold a social evening Thursday, March 18, at the home of Dr. Flora Barr, 461 Martin street, Penticton.

Howard Milne and Blake Milne, of Summerland, will show colored pictures of Hawaii and the members of the club will display some of their own art work. A short business meeting will be held. All members are urged to attend. Anyone desiring membership should contact Louis Hohenadel or Miss Vera Davies.

**NEW IN SHOEBAGS**  
Shoe bags do double duty with removable honey comb sections.

## Coast Minister For Church Of Nazarene

After being without a pastor for the past number of months the Church of the Nazarene will welcome Rev. J. R. Spittal, of Vancouver, as its new minister at the Sunday morning worship period. The church's former pastor, Rev. Verbal Williams, left this city last fall to assume church duties in Lethbridge.

Mr. Spittal, who has had many years service in the ministry, will arrive in Penticton tomorrow, and he and Mrs. Spittal will take up residence in the suite in the church building, corner of Eckhardt and Ellis streets.

GRAND FORKS, B.C.

### Legion Veterans Receive Honors

A number of presentations were made at Monday's meeting of Branch 40, Canadian Legion. P. F. Eraut, who retired as president this year, was presented with the past president's badge by present incumbent, G. W. Bolton.

In turn, Mr. Eraut honored five veterans with a presentation in recognition of 25 years of continuous membership in the Legion. The five are J. Langridge, M. Joslin, O. Estabrook, Carl Anderson and E. R. Cobb.

Pennsylvania manufactures more ice cream than any other state in the Union.

## Board Of Trade Against Socred Sales Tax Jump

Majority of Board of Trade members took a strong stand in opposition to the provincial government's budget increase of the sales tax from three to five percent when they met at SS Sicomus last Thursday night.

Although it was not unanimously, many members chorused the fear that increased taxes would drive business away and would give labor a cudgel with which they would seek wage increases.

The resolution itself read: "whereas business, labor and industry in British Columbia views with alarm the increased sales tax, be it resolved that this board shall go on record and declare their stand in a letter to Premier Bennett that the Penticton Board of Trade is strongly opposed to the proposed two percent increase."

Mover of the motion, Bruce Howard, said, "I have no objection to hospital insurance but the serious problem to be considered is business in general. People who are in a position to know say that this increase will be very detrimental to our economy."

Mr. Howard continued by saying a major proposition is attempting to attract industry to British Columbia and as Pentictonites this is a vital matter but the sales tax increase is going to defeat the purposes which is closest to our hearts."

Ron Fairclough, who seconded the motion, was concerned about the overall picture. "You have heard the rumblings of labor," he declared, "and the cost of living is going to spiral upward. We are at the mercy of governmental whims and fancies and in this particular instance I think they are misguided and misdirected."

J. W. Lawrence did not agree. "Those able to pay will be contributing more and whether the income is large or small everyone is going to have to pay a fair share. I am happy to pay this additional tax."

W. E. Guerdard took another point of view. "This five percent tax is going to be very detrimental to business in general," he said, "and I think the government is very lax in not enforcing the compulsory feature of hospital insurance."

H. G. Nares expressed fear that the government is taking a dangerous step in the direction of socialism.

P. D. O'Brien took a broad aspect. "I think we were faced with a type of socialism when hospital insurance was first inaugurated," he stated, "and if we favor it then it follows through that we must look to some system of financing the scheme."

"I am against this increase in sales tax but we must face up to the fact that some system has to be devised for collecting the needed money."

J. J. Van Winkelaar suggested that efforts should be directed to investigating whether the increased tax was justified. He said there were two points in view.

### Peach Festival W.A. To Meet On Monday

Representatives from all Penticton women's organizations and others interested in the welfare and promotion of the Penticton Peach Festival are invited to attend the annual meeting of the Women's Auxiliary to the Festival Association arranged for Monday evening at 7:30 p.m. in the Nicola Hotel's dining room. Mrs. A. Earl Wells will preside at the meeting, the first for the current season.

The election of a 1954 slate of officers is scheduled for the evening. Several recommendations in respect to the festival will be discussed by the auxiliary prior to their presentation to the Peach Festival Association.

The Netherlands' first newspaper made its initial appearance on January 8, 1656. Known as De Haarlemmer Courant, it was one of the first newspapers in Europe.

About 15,000 of the patients in Canadian sanatoria are between the ages of 20 and 50.

The iguana, a tropical lizard, has been found as far north as British Columbia and south to Patagonia.

taxation: 1. Tax on necessities; 2. tax levied on those unable to pay.

## Concert Slated For High School On Sunday

Muscle lover of Penticton and district will be privileged to hear a brilliant young Seattle pianist and a talented violinist who calls Penticton home when the Arts, Letters and Sciences Executive of the Penticton Senior High School presents Patricia Thompson and Bill Hendry in a concert to be given in the high school auditorium, this coming Sunday, March 21 at 2:30.

The student executive of the high school, its chairman, Jack Katnick, and sponsor, J. Y. Halcrow, feel that this will provide a delightful afternoon of fine music for the first day of spring. The Arts, Letters and Sciences executive is a group in the high school which endeavors to promote those activities pertaining to the cultural development of the students so that the high school program may be a balanced one between athletics on the one hand and cultural activity on the other.

Miss Thompson is an outstanding pianist in her senior year in the faculty of music at the University of Washington where she has studied under the noted Mrs. Berthe Foucy Jacobson and where she is a member of Mu Phi Epsilon, honors music fraternity.

Mr. Hendry has shown splendid achievement both here and in the United States. Now in his senior year in the faculty of music, at University of Washington, he has had a distinguished career.

### Foresters Initiate Twenty-Three Members

Twenty-three were initiated in the Independent Order of Foresters at the meeting held Wednesday, March 3, in the K.P. Hall. Brother Lou Roberts, deputy, introduced the candidates for membership and informed those present that another 20 were waiting for the next initiation on April 7.

## 30 Mile Speed Limit To Remain

Efforts of City Council to speed up traffic on Skaha Lake road were at least temporarily defeated on Monday when the Department of Highways informed council that it had no authority under the act to erect signs increasing the speed limit. The Motor Vehicle Act only empowers the department to erect

signs reducing the speed limit from 30 miles an hour. Section 58 of the act sets the maximum speed in built up areas on provincial highways at 30 miles an hour.

Council had hoped to have the speed limit increased to 40 miles an hour.

The first Pan-American Conference was convened by Simon Bolivar, Venezuelan patriot, at Panama in 1826.

## Dr. R. Mathison Valley Pioneer Dies At Vernon

VERNON — Dr. Robert Mathison, well-known retired Kelowna dentist and the last living member of the original Vancouver Board of Trade, died early Monday at Vernon in his 90th year.

Born at Hamilton, Ont., Dr. Mathison was a former printer who worked on the old Vancouver Week-Herald and, following the disastrous Vancouver fire in June, 1886, set up and printed the first copy of the Herald in the offices of the British Columbian at New Westminster.

He moved to the Okanagan in 1893, and published the Okanagan Mining Review for Henderson and Megaw of the Vernon News.

A year later, Dr. Mathison went to study dentistry at the University of Pennsylvania, graduating in 1897.

He came to Kelowna in 1908 after practising in Kamloops.

He married Martha McIntyre of Vancouver in 1898 and was predeceased by his wife in 1928.

An enthusiastic member of the Kelowna Rotary Club, Dr. Mathison also travelled to Vancouver each year to attend the annual meetings of the Vancouver Board of Trade until advancing age caused him to end his yearly visit.

Dr. Mathison was a charter member of Vernon Local No. 541, International Typographical Union.

Dr. Mathison continued his practice here until about four years ago, when he retired and went to live at the Lloyd-Jones home.

His death occurred in the Vernon Jubilee Hospital.

On December 27, 1848, the U.S. House of Representatives passed a bill designed to abolish slavery. After later consideration, the bill was postponed.

## Our Town By Jack Scott

### HELP WANTED

Today is our day to cheer up tired businessmen and so let us study the findings of the Benjamin Franklin Clinic of the Pennsylvania Hospital which examined 200 businessmen and found them mentally and physically in horrible shape.

One Philadelphia industrialist sent all 63 of his executives in for a check-up. Clinic reported that 30 percent of them were in desperate need of a doctor or psychiatrist or both.

The most common ailments were found to be coronary artery disease, hypertension (high blood pressure) and those old familiar ulcers of the stomach. The psychiatrist was needed, in most cases, to convince the executives that they should slow down and stop worrying, which their wives could have told them for free.

On completing its study, the clinic came up with a five-point diagnosis of what makes tired businessmen tired:

1 — He stuffs his business problems in his briefcase and carries them home at night.

2 — Goes out to lunch and does more talking than eating.

3 — Cannot take a real vacation because he thinks he's too indispensable.

4 — Does not have a hobby, but goes out once a week for a strenuous physical workout to cure all his ills.

5 — Does not know — or practice — moderation in either work or play.

In summary, said the clinic, a businessman must be the boss of his job, not the slave. On this simple axiom hangs the difference between the healthy businessman and the one on the lip of an emotional or physical breakdown.

These findings will surprise neither businessmen nor those who brush up against them. The surprising thing is that businessmen continue to do nothing about it.

I am acquainted with executives who spend most of their waking hours shrewdly computing risks of capital, machinery and manpower while their greatest investment — mind and body — depreciates at an alarming rate. The more important the executive, it seems, the less importance he attaches to his own natural assets.

He would never dream of overloading a machine with the kind of tension he puts on himself. It would be uneconomical. His trucks or typewriters receive a regular maintenance program designed to extend their lives. His frame and brain disintegrate at will.

You see them in their clubs at lunch, hunched in urgent conference relaxed only by Scotch and soda. You see them sweating in the steam room, trying to boil their worries away. You see them at the full gallop on the golf links.

It is a kind of disease in itself — Businessmanitis, if you like. The causes are ambition and responsibility. The outward symptoms are the furrowed brow, the chain-smoked cigarettes, the darting eye. The inward symptoms are those more serious ailments noted in the Philadelphia survey.

Very few businessmen escape it. When business is poor the businessman worries about improving it. When business is good he worries about keeping it that way or making it better. The hot breath of competition is on his neck at all times (causing those nervous glances backward across the shoulder).

And who can blame the executive in the pressure cooker of business if he feels indispensable? If he gets to feeling any other way, then other people may get to thinking that way, too, which is fatal.

## LOCAL HIGH SCHOOL STUDENT WINS EDUCATION POSTER PRIZE

News was received this week by the Penticton High School that Merlyn Whitmore, a grade eight student, won first prize for her poster judged in the class "Education in the Community". This contest was open to students of the junior and senior high schools of British Columbia in districts where a local Education Week Committee sponsored a poster contest. A great many posters were received from all over the province in the Education Week contest and were judged in several classes.

Prize winners were: Community, senior — Bunny Armon, Nelson Senior High. Community, junior — Merlyn Whitmore, Penticton Junior High. Industry and Commerce, senior — Glen Lewis, Kelowna Senior High. School, senior — Janet Wright.

Trail Senior High.

Church, senior — Anne McIntosh, Britannia High, Vancouver. Labor, junior — Keith Nelligan — Creston Jr. Sr. High.

Glen Lewis, of Kelowna, was awarded the grand prize for the most outstanding poster. Judges were J. F. K. Ladstone, Supervisor of Art, Vancouver; G. W. Mulholland, Model School, Vancouver; E. G. Ozard, art instructor, Vancouver Normal School.

In the local Education Week poster contest sponsored by the Parent-Teacher Association and the South Okanagan Teachers' Association last week, Merlyn won first prize. Maureen Pritchard and Wendy Grove, received second prizes and honorable mention went to Jill Fletcher. These prizes were presented by Miss Margaret McAstocker, president of the South Okanagan Teachers' Association at the public meeting in the high school auditorium on Friday, March 12.

ALLAN C. KELLY is 1954 chairman of the B.C. Products Bureau, Vancouver Board of Trade. Mr. Kelly is coming to Penticton, April 7, for the B.C. Products Bureau show, to be held at the Armouries. He is general manager, General Paint Corporation, Vancouver.

A. C. FOREMAN, shown above, is secretary, B.C. Products Bureau, Vancouver Board of Trade. Mr. Foreman will be in Penticton, April 7, for the B.C. Products Bureau show, scheduled for the Armouries.

## Historical Society Holds Annual Meet Here On March 25

The annual meeting of the Penticton branch of the Okanagan Historical Society will be held on Thursday evening of next week, March 25, and at that time, in addition to electing their new officers for the year, the members will enjoy a most interesting program.

Alderman J. G. Harris, will speak on the old fur brigade trail; Mrs. Louise Gabriel will discuss some aspects of Indian life, and there will also be a paper by the club's president, R. A. Atkinson, on the history of Penticton.

The club is collecting and preserving stories of the early days, and seeking to establish sites and markers to commemorate places of historical interest.

Next week's annual session, according to secretary, Mrs. C. G. Bennett, will be held in the high school auditorium commencing at 8 p.m.

## TB Mobile Chest X-Ray Survey Begins Work In South Okanagan

The B.C. Tuberculosis Society's mobile chest X-ray survey of the South Okanagan began its work in Kaleden last Friday, will be in Summerland tomorrow and Friday and completes the coverage of this area on April 9 at Osoyoos.

In a recent report from the society's office on West Broadway, Vancouver, it pointed out that if the death rate today from TB was the same as it was 50 years ago in Canada, about 30,000 would die from the disease annually. Instead, the report continued, less than 2500 Canadians died of TB in 1952. The death rate from tuberculosis in Canada in 1952 was 17 per 100,000 population, the lowest in the nation's history. There were 2,456 deaths, 1,503 of this total were males and 953 females.

B.C. was slightly over the national average with 215 deaths, over half of them males, and ranked fifth lowest in the provinces.

Tuberculosis is still the leading cause of death in the 15 to 40 group from which the working force of the nation is chiefly drawn and which has the heaviest load of family responsibility, said the report.

While the death rate from TB, says the society, is falling rapidly (the rate in Canada was 200 per 100,000 in 1900) the sickness or morbidity rate is by no means keeping pace. There are still at least 10,000 (about 28 every day) new cases of tuberculosis developing yearly in Canada. Success in prevention in the years to come should be measured by a decrease in the number of cases found.

The complete schedule for the south Okanagan is as follows:

Friday, March 26, Summerland, IOOF Hall from 1 p.m. to 4 p.m.; Monday, March 29, Summerland, IOOF Hall from 9 a.m. to 12 noon and from 1 p.m. to 3 p.m.; Tuesday, March 30, Summerland, IOOF Hall from 9 a.m. to 12 noon and from 1 p.m. to 3 p.m.; Wednesday, March 31, Summerland, IOOF Hall from 9 a.m. to 12 noon and from 1 p.m. to 3 p.m.; Thursday, April 1, Naramata, Packing House from 1 p.m. to 5 p.m.; Friday, April 2, Okanagan Falls, Community Hall from 1 p.m. to 3 p.m.; Monday, April 5, Oliver, Elks Hall from 1 p.m. to 4 p.m.; Tuesday, April 6, Oliver, Elks Hall from 9 a.m. to 12 noon and from 1 p.m. to 3 p.m.; Wednesday, April 7, Oliver, Elks Hall from 9 a.m. to 12 noon; Thursday, April 8, Osoyoos, Legion Hall from 9 a.m. to 12 noon and from 1 p.m. to 3 p.m.; Friday, April 9, Osoyoos, Legion Hall from 9 a.m. to 12 noon and from 1 p.m. to 3 p.m.

To All Interior Tree Fruit  
GROWERS AND SHIPPERS:

Notice is hereby given to all growers and shippers who are parties to the three-party tree fruit marketing contracts dated the 15th day of March, 1951, made between Growers, Shippers and B.C. Tree Fruits Limited, of the cancellation of all such contracts to be operative on the 1st day of April, 1954.

This notice is given by advertising pursuant to Clause 31 of the contracts. It is also in confirmation of the notice given in 1951 of intention to cancel, and will facilitate the completion of the 1954 contracts which are being distributed now for signature.

Dated this 15th day of March, 1954.

**THE OSAHL'S MOST VALUABLE PLAYER**, as selected by the four team coaches, Bill Warwick, looks over the crests of the Johnston Trophy, emblematic of the award. The trophy, one of the highest awards this league can give, was presented to Bill Saturday night by league president Bill McCulloch at the Penticton-Vernon game. Ken Stewart, playing coach of the Kamloops Elks in 1948-49, won the award that year, Dave McKay, then playing coach of the Vernon Canadians, won the trophy in 1949-50, Harvey Stein, of Kamloops, was selected in 1950-51, Willie Schmidt, Penticton, in 1951-52 and last season Leo Lucchini, Vernon, was awarded the coveted Johnston Trophy.

## Sports - Pourri

BY SID GODBER

Took 'em in five — I thought the V's could do it in three and they would have, given the breaks.

Canadians came to life, a bunch of eager beavers if I ever saw them. Victory over the Canadians, when they were obviously not giving out with the hockey they were capable of, carried no special laurels and I'm just as pleased the Agarmen snapped out of the doldrums for the playoffs. They made it hard going, but they were a team worth beating.

Think we came through without anything serious in the nature of injuries, so maybe Canadians did the V's a service by making the going tough.

I didn't think when Bill Warwick scored that one at around the four minute mark that he had scored the winner, although I got the impression that the Canadians knew they had had it before they came on the ice. They tried hard, but never got to flying like they did here last Saturday.

V's big weakness is that they don't get a fair percentage of goal dividends on the efforts invested. They spend most of the sixty minutes cavorting in the enemy territory, but they do have a hard time pushing that rubber across the line.

That's true, even though the V's scored 23 goals against the Canadians 14 to cop the series. Had the V's capitalized on a tenth of the scoring opportunities they made in that series they would have racked up 50 goals.

The kid line, Don Berry, Doug Kilburn and Dick Warwick has showed to advantage in the semi-finals. Hope to see them a source of considerable worry to Phil Hergeshelmer.

Yes, that's who we're up against Phil Hergeshelmer, and the Packers. Some people dread the thought of the series, others are anticipating. All are waiting with bated breath for the first clash which comes tomorrow night here.

With strict refereeing, and the refereeing has been strict in the semi-finals, there shouldn't be an undue amount of rough stuff in the finals. It will be a great series. I don't think Phil Hergeshelmer has the hockey talent boasted by Vernon's George Agar, but the Packers, as a team, rival the V's for fight.

I'm not going to stick my neck out on the number of games this series will go. I called a three game series against the Canadians, but I do believe that when the smoke clears the V's will be packing their bags for the Kootenay trip.

# V's Win Series In 2 - 0 Tilt Tuesday

The Penticton V's advanced to the finals of the Okanagan league at home last night as they wrapped up the best of five series with Vernon Canadians in fine playoff fashion playing a tight hockey for a big 2-0 win over the Agarmen.

Ivan McLelland earned the first shutout of the playoffs turning aside 22 shots, some of them toughies — Penticton threw equal rubber for their pair of light blinkers against the stubborn Hal Gordon who did sterling chores for the blueshirts as the injured Johnny Soflak sweated it out on the sidelines.

What proved to be the deciding goal came from the stick of Bill Warwick during a wild goal-mouth scramble at 4:23 of the first period as V's finally found a hole after repeated close calls.

George McAvoy assisted on the play.

Jack McDonald added the insurance at the halfway mark of the final canto as he raced down the right hand boards, pulled Gordon out with a fake to the left and flipped the rubber to the twine from a difficult angle. Helpers went to McAvoy and Grant Warwick.

That second goal broke Vernon. They skated hard but the V's had them on the ropes. As the game faded into the final few minutes, Canucks set their hearts on breaking that goose egg, at least, and with 20 seconds to go coach George Agar pulled Gordon for the last big push.

As the second hand ticked off the last second of the game, a jam-packed house leaped to its feet with a rafter rattling roar.

for the Penticton V's and special-tyed Vernon power plays high, wide and handsome. All three did some nice puck carrying and off with the aid of steady back-checking were never in serious trouble.

His work between the pipes last night for the V's put another star in his outstanding OSAHL record this year. Ivan turned aside a lot of tough rubber in the 23 tries Vernon had to crack his arms but he came through to give V's the first shutout of the playoffs.

Two in a row over V's and force the schedule to its limit, return to Vernon to hang up the blades. Coach Grant Warwick relied entirely on three defencemen and they came through with the goods as Kev Conway, George

McAvoy and Jack McIntyre sealed the Vernon power plays high, wide and handsome. All three did some nice puck carrying and off with the aid of steady back-checking were never in serious trouble.

Both netminders did a superb job and had it not been for the great Gordon effort it seems almost certain the scoreboard would have showed a bigger margin for the Penticton crew. Most of the 23 shots at both nets were hard come by and the gunners were making the most of them. V's and Canucks seemed to be drawing their sights on the corner shots as enough rubber whistled close by on the outside of the pipes to make a nice set of tires.

Doug Kilburn, playing with a painful toe injury received Monday night, turned out to be the hard luck guy in the V's as he drove hard on a string of scoring plays but failed to bring them off in the crucial split second.

In the penalty column both clubs came out even with three minors each as Conway, McDonald and Bill Warwick served time for V's and Tom Stecyk cooled his heels twice. Jim Malacko once for Canucks.

**SUMMARY**  
First period — 1, Penticton, B. Warwick (McAvoy) 4:23. Penalties — Conway, Stecyk, B. Warwick.

Second period — No goals. Penalties — Stecyk, McDonald.  
Third period — 2, Penticton, McDonald (McAvoy, G. Warwick) 10:04. Penalties — Malacko.  
Shots on goal — Penticton 8, 7, 8 — 23; Vernon 6, 10, 7 — 23.

## Packers Win Semi-Final In Four Games With Elks

KAMLOOPS — Phil Hergeshelmer's Kelowna Packers advanced to the finals of the Okanagan Senior Amateur Hockey League here Saturday night by virtue of a 3-2 decision over Kamloops Elks. Packers now meet the winner of the Penticton-Vernon series in a best-of-seven finals.

The game here Saturday gave Packers their best of five semi-finals three games to one as the two clubs met in another thrilling, down-to-the-wire struggle. Kelowna opened the scoring at 6:40 of the first period when Phil Hergeshelmer took a pass from Joe Connors and bulled the puck past Hal Gordon.

Elks came rearing back midway through the period with Jack Taggart scoring at 10:13 when Kamloops had a two man advantage. Billy Hryciuk put Elks one up at 13:59 when he drove home a sizzler from just inside the blue line. Coach Ken Uliyot assisted on both goals.

Bob Leek tied the score at 7:03 when he fired a shot at Gordon from the left hand point and Hal steered the puck just into the corner of the net.

Jim Middleton donned the hero's robes when he slammed in what proved to be the winner at 8:03 of the second frame. Frank Hoskins cracked a shot at Gordon and the puck bounded high in the air to land in front of Middleton's stick just two feet off the Kamloops' crease. Jim

turned aside every Kamloops effort in the second and third period as he performed in sensational fashion.

Meanwhile, Doug Stevenson turned aside every Kamloops effort in the second and third period as he performed in sensational fashion.

KELOWNA — Kelowna Packers beat Kamloops Elks again Wednesday night to register a two-game lead in the best-of-five semi-final-playoff series in the OSAHL.

First Kelowna goal came at (Continued on Page 6)

## Pen Hi Lakers Vie For B.C. High School Hoop Title In Vancouver

Yesterday the Pen Hi Lakers left for Vancouver to take part in the provincial high school basketball championships which begin today and run through Saturday evening in the UBC Memorial gymnasium. The locals, Okanagan Valley champions, will represent the valley along with Kamloops, second team in the "A" league, who defeated the Osoyoos team, winner of the B league.

If Lakers are able to keep their shooting and play making ability on a par with last Friday's game, in which they defeated the Kelowna Owls 69-36, they should go a long way in the 16 team tournament. They have drawn Vancouver Island, for their first round opposition. This crew is rated tough as they defeated the highly touted Alberni team. If they are victorious in their first round they meet the winner of the South Burnaby — Como Lake game. South Burnaby is at the present time considered the favorite for the championship.

The tournament will consist of a double knockout affair in which each team can lose two games before they are out of the running. Teams known to be entering the tourney are: Vancouver Island — Victoria, Esquimalt, Alberni; Lower Mainland — South Burnaby, Lord Byng, Trapp Tech, Gladstone; Okanagan — Penticton, Kamloops; Kootenay — Trail, Rossland, Fraser Valley — Mission, Como Lake, North Surrey; Howe Sound — not decided.

The executive of the Athletics are considering changing their first home ball game, scheduled for Easter Sunday, April 18, to Easter Monday.

## Bill Raptis Graduates From Umpire School

Word was received here Monday that Bill Raptis was one of the five graduates from Bill McGowan's umpire school at Daytona Beach, Florida. The former Athletic's star third sacker left here the end of January and now that he has made the grade, will be back for a few days during the early part of April.

Bill's stay here will be brief — just long enough to settle a few affairs then he is off to work in the class D ball circuit of the Sooner State league. Once placed, Bill will be umpiring in Oklahoma straight through until October.

## KITCHENER DEFEATED

Kitchener-Waterloo Dutchmen, last year's Allan Cup winners, bowed out of the Ontario senior playoffs this week as they lost to Stratford in the best-of-five semi-final three games to one. In the final game Stratford won 4-2.

## Packers Here Tomorrow To Open Finals With V's

The Packers will be here in Penticton arena Thursday night to open the best of seven series with the V's for the championship of the OSAHL. That gives the Warwickmen just one day of rest following their final battle with Vernon in the fifth and deciding game of the semi-final round.

Penticton gets the venue for the opener by virtue of the fact that they finished first in the regular schedule. The advantage of home ice, plus the fact they are still under full steam from the extended Vernon series, will give V's a big boost from the opening gun on the rough road to retain possession of the Willoughby Challenge Trophy.

The second game will be iced in Kelowna Saturday night and the third game back here the following Monday. Game number four goes to Kelowna on Wednesday.

The V's appear to have come out of the grueling first series in good shape. There have been cuts, bruises and some rough knocks all around but with the exception of a Charley horse received by Jack McDonald and Doug Kilburn's toe and leg injury, that failed to sideline either player, the V's look to be in the pink for tomorrow night.

Phantom Phil's Packers will be well rested having played their last game — on Saturday. Frank Hoskins will not be on the lineup if stories of a dressing room accident, in which he is reported to have lost a toe, are true.

The V's have done well against Packers on home ice during the regular season but this is playoff hockey, a clean sheet and its shaping up to be a tough series.

## Big Gym Display At High School Slated March 30

The Penticton high school junior and senior groups will put on a mammoth gym display in the school gym March 30, athletic director Maury Moys announced this week.

The event, which is produced every other year, will feature many forms of gym work including chair gymnastics, tumbling, mat work, dancing of all forms, mass exercises, apparatus work and comedy routines. Hundreds of students will participate in the big show that will display some of the highlights of the year's physical education at the high school.

Mr. Moys urged parents to attend for, he said, it will give them a first hand insight into the program carried out during the regular term.

In the WIL league, Nelson Maple Leafs defeated Trail Smokeaters 5-2 on Monday night to take the best-of-five semi-finals three games to one.

## First Meeting For Curling Rink Members Tonight

Tonight, in the Incola Hotel at 8 o'clock, curling enthusiasts who have paid \$150 towards the construction of a curling rink in Penticton will meet to set up the framework of their organization.

At the present time, about 110 men are entitled to a voice in the proceedings. This represents at least \$15,000 with which to launch the project. The meeting tonight will elect an executive, a building committee and finance committee.

Their objective is to have a rink in operation by next season. Cost is estimated as high as \$50,000.

Our Contractors **Kenyon & Co. Ltd.** will complete all our fixtures this week in Penticton's

## Athletics Will Play 12 Home Games In Seven Team OMBL Loop

For the greater part of the baseball season, Wednesday will be "the" day in Pentiction. The schedule, running five months, begins on Sunday, April 18 with Vernon at Pentiction. That game falls on a Sunday and the successive three games are Sunday fixtures but the remaining eight games of the scheduled 12 home games will be Wednesday affairs. Pentiction will play 24 games during the season. In a number of cases doubleheader games have been arranged for teams who must travel long distances such as Kamloops and Princeton.

## Strong Comeback By Vernon Takes Semi-Final Series To The Limit

### Thursday Game At Vernon

### Monday Game At Vernon

Some weird and wonderful penalties and a desperate crew of Vernon Canadians proved too much for the V's Thursday night as they hurled themselves into the second game of the OMBL semi-final, but fell short of the mark, losing 6-4 on the Canucks' home pond.

Canadians and V's had a goal apiece by the 7:14 mark of the first period, then Vernon collected that winning margin scoring three goals while Pentiction was short-handed. Grant Warwick fired home V's second goal at 19:12 to send the surging Agarmen into the second stanza with a 4-2 lead.

Once again the V's were a man shy as Vernon coach George Agar slapped home goal number five for the only scoreboard alteration of the second session. Pentiction came back in the final canto with a terrific driving force that saw Don Berry and Grant Warwick each score, closing the gap to 5-4 at the 14:01 mark. V's had six minutes left to tie the game and they spared nothing in those precious few minutes as the rubber flew thick and fast by the Vernon goal mouth.

But with less than two minutes remaining, Dick Butler grabbed a loose puck in his own end and burned ice for the Pentiction twine with nobody back. Jack McIntyre overtook the Vernon player just as he crossed the blue line but failed to keep him from triggering a flip shot that whistled by Ivan McLellan for the blues' sixth marker.

Vernon had showed a desperate hunger for the puck that produced a rigorous backchecking game from the opening whistle and in the first period they were beating the V's to the play, more times than enough. It was brilliant recovery for Agar's crew, but both teams were held off balance by the strange whistle tooting of referees George Cullen and Bill Neilson.

The stinker of the night was slapped on Jim Fairburn at 11:32 of the first period. He went into the game on a whistle, discovered there were too many men on the ice. (Jack McDonald was in the penalty box) and headed back to the players' box but Cullen had his finger on him. Fairburn was then charged with entering the game and falling to remain and play, but this was altered to a minor penalty for delaying the game.

**Summary**  
Lakers — Burgart 7, May 8, Bowsfield 15, Puddy 9, Macdonald 4, Madill 3, Drossos 3, Conley 6, Burth 7, Green 7. Total — 69.

**Owls** — Serwa 15, Dowle 6, Constantine 1, Bennet 1, Faurholm 4, Wiens, MacKenzie 6, Smith, Burmeister 3, Pruder. Total — 36.

## Dates Announced For Commerk League Finals

Finals of the Commercial hockey league were announced by the 22nd drive Tuesday. The games has been scheduled for Friday at 8 o'clock, the first of a best of five series between Summerland and Merchants.

Second game will be played on Sunday, but no further dates are available.

## Saturday Game At Pentiction

The Vernon Canadians, showing standout playoff hockey form compared to their dismal finish in the league, took a 2-1 edge in games in the best of five semi-finals here Saturday night as they sat the V's down 5-4. But Pentiction had a tough time choking this second defeat down in view of two plays that could (and some say should) have given the decision to the V's.

**NO GOAL**  
At the 13:25 mark of the first period Jack McIntyre raced out of a scramble in the V's end to take a pass at the red line and went in to rifle the puck past Soffiak for the goal that would have tied the score at 3-3. But referee Ed Downey ruled no goal on the contention that McIntyre had taken the pass over two lines.

Later in the game Doug Kilburn banged a shot at the Vernon netminder from about three feet that bounced off Soffiak's pad. Fans and players contend Soffiak's pad was behind the goal line.

Were they goals? The officials ruled no. And so the game went Saturday, the V's had everything but that scoring touch as time and time again the Warwickmen hammered at the claret with power plays that were nullified to kick the scoreboard up.

The Canucks took a 3-2 lead in the first period as both clubs unleashed full power to gain the driver's seat. Passing attacks that had been going haywire for the V's in the opening frame fell into place in the middle session as V's and Canucks took a goal each in the first six minutes then the Pentiction crew found the range for two more before the period ended to put them back in the game, but still trailing 5-4.

The only entries in the scorebook in the final canto were penalties — three to the V's and one to Canadians — as the V's swarmed around the Vernon net without success while Ivan McLellan turned aside 11 shots. Time ticked off to less than a minute remaining in the game and V's coach Grant Warwick pulled McLellan from the net in a desperate gamble to tie the count, but time ran out and the Canadians moved into the advantage position for the fourth game Monday night.

Jack McDonald turned in a terrific game for the V's and accounted for two goals during the long stints he burned ice. Bill Warwick blinked the light in the second period and Don Berry banged home Pentiction's second goal in the first period. Jack McIntyre and Dick Warwick picked up two helpers and single-

tons went to Doug Kilburn and Bernie Bathgate. Jack Miller found the mark twice for Vernon with single goals going to Johnny Harms, Don Jakes and George Agar. Dick Butler and Bob Ballance earned two assists for the blue-shirts and Leo Lucchini and Tom Stecky picked up single helpers.

V's took the edge on penalty time serving ten minutes to Vernon's six. Shots on goal were split 13 each in the first period. V's outshot Canucks 12-6 in the second and Vernon took over in the third to fire 11 shots to V's 5 for a game total of 30 each.

**Summary**  
First period — 1, Pentiction, McAvoy (unassisted) 1:21; 2, Vernon, Butler (Miller) 7:14; 3, Vernon, Stecky (McLeod, Harms) 12:44; 4, Vernon, Miller (Agar, Harms) 17:54; 5, Vernon, Miller (Balance) 18:03; 6, Pentiction, Warwick (D. Warwick) 19:12. Penalties — McDonald 2, Fairburn, Berry, Geary, Agar, Butler (10 min. each).

Second period — 7, Vernon, Agar (Miller, Stecky) 13:48. Penalties — D. Warwick, Berry, McLeod, Malacko.

Third period — 8, Pentiction, Berry (McDonald) 4:52; 9, Pentiction, G. Warwick (McDonald, McAvoy) 14:01; 10, Vernon, Butler (Miller, Davison) 18:43. Penalties — Berry, Harms 2, McAvoy.

There were just eleven seconds left in the opening frame when Bill Warwick completed the brother act, scoring on a goal-mouth scramble with Grant and Bathgate.

Leo Lucchini broke the goose egg for Vernon at the seven second mark of the middle session when the V's failed to clear the puck around behind the net, dropping an easy shot on Leo's stick.

Jack Miller whipped a rebound past Ivan McLellan in the opening minutes of the third period to close the gap to 3-2 and close to 3000 Vernon rooters were on their feet screaming for that tieing goal.

Bernie Bathgate crushed their hopes just 40 seconds later as he promoted a smashing power play with Bill and Grant Warwick at 3:43. Dick Warwick, put the cap on a terrific night of standout hockey at 17:14 as he got his stick on the rubber just long enough to flip it behind Gordon, unassisted, in a mixup at the Vernon cage.

The backchecking Vernon right out of the picture. They were stopping them before they got started and the blues, who looked plenty sharp in the opening minutes, faded in the last half of the opening period and stayed down throughout the game except for the occasional burst of playoff brand hockey that looked puny in the face of the rampaging V's.

The backchecking and the tremendous rearguard job performed by Kev Conway, who played the greater part of the game, George McAvoy and Jack McIntyre paid big dividends. Vernon got only three shots at McLellan.

**Summary**  
First period — 1, Vernon, Miller (Balance) 2:23; 2, Vernon, Agar (Butler, Stecky) 2:40; 3, Pentiction, McDonald (Bathgate) 4:06; 4, Pentiction, Berry (Kilburn, McIntyre) 7:36; 5, Vernon, Miller (Butler) 8:13. Penalties — Montgomery.

Second period — 6, Vernon, Jakes (unassisted) 1:41; 7, Vernon, Harms (Lucchini, Balance) 5:51; 8, Pentiction, B. Warwick (McIntyre, D. Warwick) 9:06; 9, Pentiction, McDonald (D. Warwick) 19:04. Penalties — Lucchini, Davison, G. Warwick.

Third period — No score. Penalties — Berry, Montgomery, Conway, Davison.

**Riding Club Formed By Naramata Group**  
NARAMATA — A riding club has been formed in Naramata with Miss Rhona Tennant elected its first president at the organizational meeting held recently at the home of Mr. and Mrs. H. A. Partridge.

More than twenty riding enthusiasts gathered to choose a name for the club, elect the slate of officers and make other plans for the season's activities. Barry Hink was elected vice-president, Miss Ann Darling, secretary, and Miss Joyce Partridge, treasurer of the club to be known as "Naramata Trail Riders". Adult advisors for the club are Mrs. A. H. Grant, Jack Buckley, B. Gawne and Ted Parker.

Plans were made for the first ride of the spring season on Sunday when the group will carry lunches and ride out to Partridge ranch.

The club will meet the first Thursday of each month with the next meeting to be held at the home of Mr. and Mrs. B. Gawne on April 1.

## Lawn Bowlers Met Saturday To Plan For Active Year

The Pentiction Lawn Bowling club swept away the winter's cobwebs Saturday afternoon in the club house as they met to appoint the various committees for the coming season. Those in attendance were R. Lyons, R. Jones, A. F. Cummings, A. A. Swift, vice-president, and W. J. Harris, club president.

This year the greens committee will be A. F. Cummings as chairman, W. W. Riddell and E. Coates.

R. Lyon will chair the match committee and working with him are D. V. Cranna and R. L. Smith. The official umpire for the ensuing year is C. W. Lintott and G. Paterson is greenkeeper. Preliminary arrangements were outlined for a very busy season which will include competitions with all interior clubs and visits from clubs at the coast.

It is also expected that support will be given to the British Empire Games, lawn bowling division, and following the games it is quite likely, said the executive, that Pentiction will be hosts to several of the international teams taking part.

## 30 Rinks In Last Summerland Spiel Of The Season

SUMMERLAND — Summerland Curling Club activities concluded on Sunday evening with the finish of a 30 rink bonspiel which started on Thursday.

Winner of the "A" event was H. Lemke with John Cladwell, Howard Clark and Hans Stoll, who defeated Dave McInnis, Ronnie McKay, Walter Caryk and Jimmie Doherty.

Dr. L. Day's rink won the "B" class when he, Harry Braddick, Gordon Bees and Cecil Watson won over Dr. W. H. B. Munn, Edward Smith, Tommy March and Marvin Henker.

The "C" event went to W. Croft, Howard Shannon, Gordon Ritchie and V. Tripple, who defeated C. J. Bleasdale, George Faasse, Ken Boothe and Ryan Lawley.

Prizes were presented by Walter Toews, club president.

## Kelowna Wins

(Continued from Page 4)  
The 20-second mark of the first period. Elks pressed from the face-off but Amundrud grabbed a loose pass in the Kamloops end, raced the length of the ice and deposited the puck between Hal Gordon, Frank Kuly assisted. A fast break in the second stanza put Packers two goals up. Kuly passed to McCulley in close and he caromed the puck off a skate and into the net. At 12:08 Hergeshelmer rifled a drive at Gordon and Hall spread-eagled to boot the puck out, but Don Smith pounced on the rebound and found a hole to make it 3-0. Elks finally beat Doug Stevenson at 12:13 when Fred Denny centred from behind the Packer net to Carlson, who blinked the light.

**SUMMARY**  
First period — Kelowna, Amundrud (Kuly) 20. No penalties.  
Second period — Kelowna, McCulley (Kuly) 18; Kelowna, Smith (Hergeshelmer) 12:08. Penalties — Slater, Hanson, Millard, McCulley, Hanson.  
Third period — Kamloops, Carlson (Denny, Swarbrick) 12:13. Penalties — Slater, B. Carlson, Fischer.

**SUMMARY**  
First period — 1. Kelowna, Hergeshelmer (Connors) 6:40; 2. Kamloops, Taggart (Hryciuk, Ulyot) 10:31; 3. Kamloops, Hryciuk (Fleming, Ulyot) 13:59. Penalties — McCulley 2, B. Carlson, Leek.  
Second period — 4. Kelowna, Leek (Connors) 7:03; 5. Kelowna, Middleton (Hoskins, Amundrud) 8:03. Penalties — Clovechok, McCulley.  
Third period — no scoring. Penalty — Hergeshelmer.

**Puddles Bow To Osoyoos 29-13 In Final Hoop Tilt**  
Pen III Puddles found the Osoyoos Junior boys too much basketball team as they went down to defeat 29-13 in their final game of the year last Saturday in the Pen III gym. The Osoyoos team, led by Alvin McInnes, had it all over the locals as far as play making and shooting percentage was concerned. Alvin could have taken the locals on by himself on Saturday as he scored fifteen points, more than all the Puddles could scrape up between them. For the locals Don Robb played a standout game but could get little cooperation from the rest of the team in point scoring. Don scored nine of the Puddles' 13 points. The locals, were trailing 12-0 at the half, but the third quarter was disastrous as Osoyoos outscored the Pen III team 8-0. They continued fine play in the final frame to outdo the locals 9-4.

## Lifting the burden of fear

Is there a way to be free from fear — for oneself, one's health and welfare, and concerning those one loves? A mighty and increasing multitude can answer "We have found the way!" Men and women in all walks of life, in heartfelt thankfulness testify that Christian Science is showing them how to replace fear with confidence and assurance unshakable.

Through the thoughtful study of "Science and Health with Key to the Scriptures" by Mary Baker Eddy they are proving step by step, in a plain and practical way, what real understanding of God does for man. This great book may be read or obtained at all Christian Science Reading Rooms. The coupon is also for your use.

## Naramata Locals

**NARAMATA** — Mr. and Mrs. Fred Mathers, of Vancouver, were Sunday visitors in Naramata with the latter's sisters, Mrs. G. Hayman, Miss Kathleen Robinson and Miss Dorothy Robinson. Particular interest is attached to the coast couple's visit here. They left Vancouver on Sunday morning in their private owned plane piloted by Mrs. Mathers to arrive in Penticton before lunch time. They were met at the air port there by Mrs. Hayman who drove them to Naramata where they lunched and made a brief visit prior to returning by air to the coast with Mr. Mathers piloting the plane on the return trip.

Mr. and Mrs. W. Hazenau and two children, who have been residing on the Vern Thomsen orchard, have taken up residence in the cottage on the Workman orchard, the former George Forbes' home.

Tentative plans are underway for the annual craft display by the students of the Leadership Training School combined with afternoon tea served by the members of the Women's Federation of Naramata United Church. The jointly sponsored event will be held in the LTS on April 7.

Mr. and Mrs. W. H. Whimster were in Summerland on Friday evening to attend a joint meeting of the Penticton and Summerland UBC Alumni Associations held at the home of Dr. and Mrs. T. H. Anstey, Dominion Experimental Station.

Mrs. Wesley Cairn-Duff is a patient in the Penticton Hospital.

Mrs. W. T. Nuttall returned to Naramata on Saturday after spending the past three months visiting in Vancouver with her son-in-law and daughter, Dr. and Mrs. C. A. Hornby and family.

The guest lecturer at the Christian Leadership Training School, Rev. Gerald Hutchinson, of Telfordville, Alberta, gave the sermon on Sunday morning at the Naramata United Church. The Sunday evening service was conducted by Miss Shirley Clark, of Dawson Creek, with the addresses being given by Miss Joy Jochem, Milk River, Alberta, and Miss Vivian Blaney, High River, Alberta, all LTS students.

Mr. and Mrs. G. W. Raitt motored to Princeton on Thursday to spend the day with their daughter, Miss Mary Raitt, who was celebrating her birthday. Miss Raitt, an employee at the Bank of Commerce, came to Naramata to spend the weekend with her family.

Gene Pezzolo, who recently came to Naramata and who purchased the Ian McKay orchard, has, owing to ill health disposed his acreage and returned to reside at his former home of San Jose, California. Mrs. Pezzolo and son Peter are still in Naramata. Peter is a guest at the home of his parents and Mr. and Mrs. Philip Workman, who purchased Mr. Pezzolo's holdings here, and Mrs. Pezzolo is spending some time with her parents, Mr. and Mrs. Ernest Sammet, prior to joining her husband in California shortly.

Miss Muriel Slimes and Miss Kathleen Robinson have returned to Naramata after spending the past three weeks in Vancouver.

Mr. and Mrs. Don McIntosh and son, David, of Ocean Falls, are guests at the home of Mrs. McIntosh's mother, Mrs. Flora Littlejohn. Mr. McIntosh is here temporarily while waiting for admittance to the hospital in Vancouver.

A dress rehearsal was held at the community hall last evening by the cast of "Lady Precious Stream", a Chinese comedy being presented twice, the first performance on Saturday evening at 8 p.m. and the other, next Tuesday evening, March 23, in the community hall under the auspices of the Naramata Players, the Women's Institute sponsored dramatic club. The forthcoming production employs a cast of fifteen and promises to be colorful, amusing and entertaining, to both children and adults. Proceeds from the two performances are designated for the Naramata W.I. bursary fund given annually to a local student attending the Penticton High School. It is anticipated that several visitors from various adjoining communities will accept the invitation to come to Naramata for the Saturday show.

**Summerland Girls Down Kamloops On Saturday 37 To 20**  
SUMMERLAND — Summerland high school basketball team, "P" girls basketball team, who challenged Kamloops senior "A" girls' team to a two-game total points series for the Okanagan mainline championship, were successful in the first game played here Saturday night, outscoring the visitors 37-20.

Stars among the local hoopers were Doreen Fleming, who scored 13 points, and Pearl Hooker, who marked up 11. Outstanding on the northern team was E. Powles with 9 points.

The next game will be in Kamloops on Saturday, March 20, in the preliminary between Summerland Merchants and the high school boys' Rockets, the Merchants triumphed 43-20.

The horse breeding industry in the United States is valued at \$200,000,000.

Mrs. Kathleen Couston was a weekend visitor in Vancouver with her parents, Mr. and Mrs. J. A. Noyes, who have been visiting at the coast for the past several weeks.

A distinguished guest, Rev. John Stewart, of the Atlantic Christian Training Centre, of Toronto, was a guest at the Leadership Training School last week. Mr. Stewart was in Naramata to observe the methods employed at the school and to gather data in respect to its operation and location with the view to establishing a similar school in one of the eastern provinces. The visitor has been appointed principal of the proposed school, the fourth of its kind in Canada. The Naramata school was the first to be founded with the other two following, one in Saskatchewan and the other in Ontario. It is thought the new school will be opened in either Nova Scotia or New Brunswick.

Mr. and Mrs. Phillip McKenzie, of New Westminster, were weekend guests at the home of the latter's parents, Mr. and Mrs. Walter Palmer.

Mr. and Mrs. Fred Westfall, and two small children, of Nelson, left for their home on Sunday after visiting with the parents of Mrs. Westfall, Mr. and Mrs. P. Partridge. Mr. Westfall joined Mrs. Westfall and children last week after they had spent the past month here and they all motored home together.

Mr. and Mrs. W. C. Kines motored to the coast on Wednesday with their daughter, Miss Mildred Kines, when she returned to Chilliwack after a short visit in Naramata. Mr. and Mrs. Kines are planning to visit in Chilliwack and New Westminster before returning home next weekend.

Ten members of the AOTS from South Burnaby were guests over the weekend at the Christian Leadership Training School.

Mrs. E. Taylor has returned to her home in Naramata after spending some time as a patient in the Penticton Hospital.

Currently visiting at the home of Mr. and Mrs. Philip Workman are the former's parents, Mr. and Mrs. W. O. Workman, of Sweet Home, Oregon.

A number of pre-school age children were birthday celebrants in Naramata last week. A round of pleasing parties marked the occasions for Bruce Reilly, Eddie McLaren and Clayton Oliver. Bruce, who was six on Thursday, entertained a number of his young friends at the home of his parents, Mr. and Mrs. J. D. Reilly; Eddie, son of Rev. and Mrs. R. A. McLaren, was host to several small playmates on Friday, the occasion of

Early discovery of TB pays dividends to both the individual and the community. If a case is found before symptoms appear, the chances of recovery are better than nine in ten. The recovery is also more likely to be permanent. Early discovery pays in another way; the danger of spread to others is less. The farther disease is advanced the greater the danger to contacts.

So shallow is the sea between Japan and Korea that a comparatively slight upheaval of the bottom would enable an army to walk across dryshod.

his sixth birthday, and Clayton, who was five on Tuesday, had a party on Saturday at the home of his parents, Mr. and Mrs. Wells Oliver.

Mr. and Mrs. A. G. Stanforth with daughters, Nancy and Eileen, returned to Naramata on Monday after spending the past four months visiting abroad. While away they visited in Cardiff, Wales, with Mr. Stanforth's family; in North Hampton, with relatives of Mrs. Stanforth's mother, in the north of England with friends and spent some time in London and other centres of interest in Britain. Mr. and Mrs. P. R. Cross, parents of Mrs. Stanforth, who occupied the Stanforth home while they were on their holiday visit, have returned to their home in Naramata.

## Legion Seeks Help For Older Veterans

A resolution from Penticton Branch 40, Canadian Legion, will be forwarded to the resolutions committee calling attention to the fact that a condition still exists where veterans of the first world war have not yet obtained a clear title to their homes and land.

These were purchases made under the Soldier Settlement Board plan.

The resolution, which it is hoped will eventually find its way to the Dominion Legion convention, scheduled for Toronto this summer, will ask that measures be taken to wipe out debts against these properties.

A study by a major steel company has revealed that its employees are nearly three times as safe on the job as they are at home.

Forasmuch as ye know that ye were not redeemed with corruptible things, as silver and gold, but with the precious blood of Christ, as of a lamb without blemish and without spot.

— I Pet. 1:18, 19.

## OF CABBAGES And KINGS by Vince Duggan

The other day I saw a picture of nine castles neatly lined up in a church. The caption said "burned to death" and beneath ran the story of how a mother and her eight daughters had died. Commenting on this to Fire Chief Merv Foreman, I asked, "how do things like this happen?" "Well," answered Merv, "it's nearly always carelessness. We had a case here in Penticton not so long ago where a two-year-old boy lost his life." "Yes," I replied, "it was a case of playing with matches." "Precisely," answered the chief, as his eyes welled up with tears when he recalled the accident, "a human being can't possibly go through worse agony than the shock of burns. The pain is terrific." I mentioned to Mr. Foreman that his monthly report showed a fire loss of five dollars and he replied, "Yes, there was five dollars damage in that fire—five dollars and a child's life." Had the child lived he would have gone through months of physical torment as doctors grafted new skin to his seared body. Mr. Foreman said, "There is only one proper precaution and that is never leave your youngsters unless they are in competent hands."

"We know of many cases where a mother just went across the street for a moment and a tragedy resulted." Here are some precautions: Mr. Foreman advised, "Never leave matches where children can get them; educate your youngsters about the hazards of fire; make sure your baby sister has a plan in case of fire. Merv said, 'for some children matches and fires are fascinating. We must recognize that and take precautionary steps.'"

### BLUE LINE

Which is more important, hockey in Vernon or the business of Penticton? I believe both are important and no doubt Edgar Dewdney, board of trade president, thinks likewise. Mr. Dewdney has an axe to grind with members who say they are coming to the meeting and don't show up. Members are canvassed so that catering arrangements can be made at a dollar a plate. When they don't show up the Board of Trade is stuck. Said Edgar, "I like hockey too, but when members say they are going to be here and then don't arrive I take a dim view of it. I think that conduct disgraceful, dishonest and despicable."

### FLIVVERS

Ron Faldrough, energetic salesman with Hunt Motors, has fenced with many customers but this one last week knocked him for a loop. A lady came in looking for one of those \$75 Hunt Motors bays but there was an if. "If you will accept my 1932 Chevrolet at \$35 on a trade in, I will buy that 1937 Plymouth at \$75," she added. That sounded like a fair deal to Ron until the lady added, "when you're making out the contract put in a stipulation that we don't pay any money until my husband gets work."

### TELEVISION

"The Barry Foreman's are apt to be looking at 'show' right in their living room this summer. Mrs. Foreman received a telegram recently from the Vancouver Daily Province that she had won a television set in the paper's tangle contest. She also receives \$50. Television is nonexistent in Penticton.

### DO YOU KNOW?

This is a little contest. Answer next week. Send no box tops, we'll pay no money. But it's for

## Head UBC Department Agricultural Economics Speaker At Summerland

SUMMERLAND — Dr. W. J. Anderson, head of the department of agricultural economics at UBC, was the speaker at the annual Board of Trade dinner on Thursday evening. His subject was the future place of agriculture in an expanding economy. Dr. Anderson is a native of Saskatchewan and after attending schools in that province went to the University of Chicago. He has been in B.C. for six years. He told of the relatively small percentage of population in B.C. which he set at 10 percent, occupied in agriculture, or about 100,000. This, however, represents 26,000 business units which presents problems in itself, he said. Under cultivation there are 1.1 million acres and 13 million under grazing. From these B.C. produces approximately 70 percent of the agricultural products used in this province. The physical potentialities for expansion are great; the expert continued, with another five million acres which could be cultivated as well as land which might be irrigated. An unknown factor is the other kinds of capital which could be used to expand agriculture, as well as technological improvements.

He said that agriculture has grown along with industry about 10 percent in the last ten years, although the amount of land under cultivation has not increased as rapidly as the total volume. Labor required has declined 15 percent, displaced by a great increase in capital expenditure. The paradox, Dr. Anderson thought, was that there had not been a similar expansion in net returns, saying, "since 1946 agriculture has declined in cost price relationship."

He developed the thought that this is an era of rapid economic development, agriculture has not participated fully in overall prosperity, though this growth in the western world, is salutary freeing it from the fear of want. With economic growth associated with growing population, greater income per person, changes in the wants of people and production associated with technological changes, there may be planned agriculture adjusting itself to the wants of the people since purchasing power is increased and a greater demand for agricultural products of certain types.

More and more is required of agriculture, he noted, and the rate of growth supply tends to outstrip the demand. His conclusion was that agriculture is less apt to undergo disruption in B.C. than other provinces, because it produces things towards which increasing incomes are directed. He prophesied that the fruit industry is less likely to run into hard ships than production of cereals and other grains.

I. R. A. Richards thanked the speaker, who was introduced by I. H. Golly, retiring president of the Board of Trade, and invited him to return to make a further study of the valley industry.

The northernmost post office in the United States is Penasco, Minn., on American Point, a 50-acre island in Lake of the Woods.

Pete Adams, secretary-manager of the Canadian Legion, gave me some facts and figures the other day that leads to a feeling of consternation. And the Legion is protesting. There is a law which states that the widow of a pensioner who received a 50 percent allowance gets \$100 a month. But in the case of a pensioner who got, say, 49 percent, his widow gets nothing. What stuffed-shirt, big shot politician thought that one up?

In marriage, as in a cafeteria, you pick out what you want... then pay.  
  
WEARING THE GREEN  
Falls but you look well today. Tim heading downtown to look up Gerry O'Hara and Pat Mulligan. Taking Cio Rowland along.

**TAG DAY MAY 15**  
SUMMERLAND — Summerland council has granted the request of the Ladies' Hospital Auxiliary to hold a tag day on May 15.

Nine-tenths of the Canadian forests are owned by the people.

## Delegate Reports To Summerland Council On Recreation Conference

SUMMERLAND — J. Sheeley, community representative at the gram's branch of the department of education in Victoria, which explained the new philosophy of the government in regard to recreation was enthusiastic in his report to Summerland council last week.

Excellent lectures were given by Bob Osborne of UBC, the Olympic games coach, head of Vancouver parks' board, and many others, he said.

From the discussions he learned that programs which spring from local communities are better than government supplied plans, and he found that Summerland has most of the sports suggested by the programs. Branches which will act in an advisory capacity, and has grants to provide either a full, or part-time director.

Jim Pantou, of Kelowna, is regional consultant. Mr. Sheeley said, and also that it is expected

## Summerland A.C. Asks Council To Act As Trustee

SUMMERLAND — Dr. M. Welsh, president of the Summerland Athletic Club, attended the council meeting last week to ask if the municipality would act as a trustee for the club if it were ever necessary for it to disband or go into liquidation.

Dr. Welsh explained that a new constitution and by-laws are being drawn up and it is hoped to safeguard the assets through council trusteeship.

In the event of liquidation debentures would be paid from assets with the residue to be used for municipal sports.

to be 10 years before the government will have the program working as anticipated.

Monaco, Europe's second smallest independent state, is almost three times as large as Vatican City.

## The Fox and the Leopard

A FOX and a Leopard were disputing about their looks, and each claimed to be the more handsome of the two. The Leopard said, "Look at my smart coat; you have nothing to match that." But the Fox replied, "Your coat may be smart, but my wits are smarter still."

**MORAL:** Smart wits can bring you happiness and good fortune. Outfox the hazards of life by opening a savings account with The Canadian Bank of Commerce—as so many other alert Canadians have done. ## Luscious HONEY BUN RING

Quick to make with the new Fast DRY Yeast

Hot goodies come puffing from your oven in quick time with new Fleischmann's Fast DRY Yeast! No more spoiled cakes of yeast! No more last-minute trips—this new form of Fleischmann's Yeast keeps in your cupboard! Order a month's supply.

### HONEY-BUN RING

● Sift 1/2 c. milk, 1/2 c. granulated sugar, 1/4 tsp. salt and 1/4 c. shortening; cool to lukewarm. Measure into a large bowl 1/2 c. lukewarm water, 1 tsp. granulated sugar, stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Fast Rising Dry Yeast. Let stand 10 mins., THEN stir well.

Add cooled milk mixture and stir in 1 well-beaten egg and 1 tsp. grated lemon rind. Stir in 2 c. once-sifted bread flour; beat until smooth. Work in 2 c. (about) once-sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of

dough. Cover and set in warm place, free from draft. Let rise until doubled in bulk. Punch down dough and roll out into an oblong about 9" wide and 24" long; loosen dough. Combine 1/2 c. lightly-packed brown sugar and 1/4 c. liquid honey; spread over dough and sprinkle with 1/2 c. broken walnuts. Beginning at a long side, loosely roll up like a jelly roll. Lift carefully into a greased 8 1/2" tube pan and join ends of dough to form a ring. Brush top with melted butter. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, 45-50 minutes. Brush top with honey and sprinkle with chopped walnuts.

# The Women's World

Straight from your oven to your table—a basketful of hot Bran Muffins to serve with plenty of butter and homemade jam.

### Bran Orange Muffins

Two tbsps. shortening, 1/2 cup sugar, 1 egg, 1 cup ready-to-eat bran cereal, 1/2 cup milk, 1 cup flour, 1/2 tsp. salt, 2 1/2 tsp. baking powder, 2 tbsps. grated orange rind.

Cream shortening and sugar thoroughly; add egg and beat well. Stir in bran and milk; let soak until most of moisture is taken up. Sift flour with salt and baking

powder; add orange rind; add to first mixture and stir only until flour disappears. Fill greased muffin pans two-thirds full and bake in moderately hot oven (400 degrees F.) about 30 minutes. Yields 12 muffins (2 1/2 inches in diameter) or 8 large muffins (3 inches in diameter). Note: When sour milk or buttermilk is used instead of sweet milk, reduce baking powder to 1 tsp. and add 1/4 tsp. soda.

## Gigantic Doll Contest For Women's Division Of CNE

Dolls, thousands of them, will compete with each other this year in a gigantic contest which officers of the Women's Division of the Canadian National Exhibition herald as one of the most novel in the history of the Women's World.

Elsa Jenkins, organizer of the contest and manager of all women's activities at the C.N.E., hopes that every woman, whether housewife or careerist, will take time off from her regular duties and dress a doll for the competition.

While most women are expected to do the craft work themselves, others may enlist the help of members of their families or shop around for "just the right doll" and for colorful garments.

Envisioned is a high pageant of dolls, beautifully accoutered and dramatically displayed in the Women's World division of the exhibition.

Here are the rules:

(1) Judging will be on the basis of workmanship, originality and costume design.

(2) Classes under which all entries will be registered are: Senior class for groups and individuals (including high school classes) 16 years and over; Junior class for individuals and groups, 15 years and under.

(3) Prizes are the most attractive at the "EX".

Senior Class — \$100, \$75, \$50.

Junior Class — \$75.00, \$50, \$25.

(4) Prospective entrants may write for entry forms to the Women's Division, Canadian National Exhibition.

(5) To be eligible, dolls may not be less than 10 inches and not over 21 inches in height. may depict any age, personality, period, modern, national, or "out of this world" in design.

(6) All dolls become the property of the Women's Division of the Canadian National Exhibition and will be distributed through recognized charities to little girls who are most in need of a doll for Christmas.

(7) All dolls must be in the possession of the Canadian National Exhibition by July 1st, 1954.

(8) Distribution will be through the "Canadian Welfare Council", "The Salvation Army", and the "Canadian Save the Children Fund."

"Rarely have we been as excited about any single promotion in our long history, as we have been by this glamorous 'Doll Dressing Competition'." Mrs. Jenkins maintains. "It will not only provide the women's section of the C.N.E. with a show of universal appeal, but will do so much for so many children, who will be thrilled by their dolls from Santa Claus."

### EVEN HIGH FASHION IS WASHABLE

More and more beautifully styled clothes are newly washable this spring. Coats, dresses and suits that are easy to wash, quick-drying and shape retentive are available in many new designs.

### OHIN-DEEP IN FUR

Girls' dresses wear rabbit fur collars this spring — as the juvenile fascinate of fashion's milk trims.

## Working With The Red Cross

### THE VOLUNTEER

In the Concise Oxford dictionary there is a remarkably single and concise definition of the word "volunteer" — "a spontaneous undertaker." It states, "of task, etc."

In the Red Cross, that one word "task" might refer to any one of the thousand upon thousands of duties, as very large as they may be very small, in any one of the 18 major services offered by the Canadian Red Cross Society.

### EIGHTEEN SERVICES

These are: women's work, disaster service, veteran's service, international relief, Canadian Red Cross Corps, blood transfusion service, Canadian Junior Red Cross, Hospital for Crippled Children, swimming and water safety, health and casualty service, sick room loan supply cupboards and Outpost Hospital and nursing stations.

These, in turn, are subdivided in the various areas across Canada by regional divisions, and local branches of the Canadian Red Cross Society, which endeavor to provide for each area those services which are most required.

### ASSISTANCE TO OTHERS

Wherever you may be in Canada, however, there is one basic unalterable key to Red Cross, and that "key" is the volunteer worker. As a person she is a composite; housewife, office worker, socialite, young woman, middle aged woman or elderly woman; but as a spirit she is constant. Whatever her age or her station in life, her one aim in donning the Red Cross badge of mercy is the volunteering of assistance to others.

Whatever her regular duties,

the Red Cross volunteer is a person whose spare time is made busy by her dedication to others. Without this dedication on the part of the thousands of volunteers who make up the Canadian Red Cross Society the organization in Canada could not begin to accomplish its dedicated purpose, the relief of suffering, whenever or wherever it may arise regardless of race, creed or color.

When a case of clothing or bright warm quilt stamped Canadian Red Cross is opened by a native of the earthquake stricken island of Greece, for instance, it is the work of not one but thousands of Red Cross volunteers. It is the work first of the collective volunteer, the Red Cross itself—which has volunteered this aid to Greece.

It is the work of the women's work room volunteers who make the clothing and quilts; the on-the-street volunteer who contribute to the annual Red Cross campaign, and the national network of volunteers in all parts of the society, whose individual, industrious threads have together spun this close knit web of mercy.

In anything that is done under the name of the Red Cross, the basic key is the lone volunteer; the teachers in schools, the men and women officers in the branches and divisions, the blood donor, and the financial contributor to the Red Cross. It is the work of all these people, individually, in all parts of the Red Cross.

Penticton volunteers will receive a warm welcome on Friday afternoons down at the workroom in the Red Cross Centre on Main Street.

### ACCESSORY BLOUSES

#### MADE FOR CHANGES

Long sleeved classic sports blouses are available with buttonholes above the elbow for the insertion of small scarves or large sports handkerchiefs.

## Mustard-Pickle Dumplings

Mix and sift into a bowl, 1 1/2 c. once-sifted pastry flour (or 1 1/2 c. once-sifted all-purpose flour), 3 tps. Magic Baking Powder, 1/2 tsp. salt. Cut in finely 2 tbs. chilled shortening. Make a well in dry ingredients and add 1/2 c. finely-chopped mustard pickle in sauce and 1/4 c. milk; mix lightly with a fork, adding milk if necessary, to make a drop dough. Drop in 6 portions, over hot cooked stew. Cover closely and simmer (never lifting the cover) for 15 mins. Yield—6 servings.

## Building Queries

Q. I've heard the term "holiday" used in connection with painting. What does it mean?

A. Holiday is a slang word used by professional painters to describe a spot missed while painting. Going back to touch up the spot is often satisfactory, but sometimes this results in a larger spot of a deeper shade. In home painting, a holiday occurs most often on a ceiling, especially when the shade of paint being used is exactly the same as that of the old coat. The best way to avoid a holiday during painting is to have plenty of light on the area being painted. The shine of the new paint then will stand out from the old and insure complete coverage.

## How To Work With Metals

There are many repair jobs which call for the home handyman to work on or with metal. The man who is handy with woodworking tools will find the jump to metal repair work fairly easy. But there are some fundamental differences which it is well to know in order to get good results.

We've gotten together a list of tips on working with metal. Little things which may prove of assistance in both large and small home repair projects. They're not in any particular order, since we jotted them down as they came to mind, but here they are:

In drilling holes in metal, it is vital that a start first be made with a centre punch and a hammer. If this is not done, the drill will not take hold properly, will slide across the work and could result in an injury.

To keep metal-cutting snips in good condition, never use them to cut wires. Also, to make a cut in sheet metal without damaging the snips or shears, the sheet must be inserted as far back as possible between the blades.

**SOLDERING**  
In soldering, remember that a special flux and solder must be used for aluminum. When soldering aluminum to some other kind of metal, aluminum flux must be used on the aluminum and whichever flux is required for the other metal. Your best bet in purchasing flux and solder is to tell your dealer what kind of metal you are working with, to be sure that you get the right kind. Zinc chloride flux, for example, should never be used on electrical connections.

Although many persons are not aware of it, chemical solutions are available for coloring or tinting metal. We are not talking now about paints, enamels and the like, but about transparent coloring materials.

Hacksaw blades break for a variety of reasons. Among them are: too much tension, not enough tension, too dull, too much pressure while sawing, attempting to cut thick material with a fine-toothed blade, and holding the saw at too much of an angle instead of cutting with the saw in a horizontal position.

When it is important that there be no hammer marks on metal being formed, it is necessary that a soft-face or brass-headed hammer be used. Some of these soft-face hammers come with plastic heads.

**BRUSH FILES**  
Files will not stay in good condition unless they are brushed often with what is known as a file card or a brush, or both, the tiny pieces of metal which lodge between the file teeth not only cause scratches in the work but shorten the life of the file. That is why a mechanic, while working on metal, will tap the file against the workbench frequently to loosen the chips. In filing, apply only enough pressure to keep the file cutting. One of the surest ways to ruin a file is by applying too much pressure. That doesn't mean relaxing the pressure entirely, since that, too, is harmful, especially on hard metals.

Never use a pipe or stillson wrench on a nut or bolthead if you do not want to ruin them. The jaws of these wrenches have teeth which chew up the corners of nuts and boltheads.

When chipping metal of any kind, always wear goggles. That goes even if you wear glasses, since flying chips can get by the glasses and damage your eyes. Years ago this was quite a problem, because the ordinary goggles would not fit on snugly over glasses. Now, however, it is possible to buy inexpensive goggles which fit well over glasses.

While the terms ferrous metals and non-ferrous metals often appear mysterious and highly technical, they are not if you remember that ferrous simply means iron. Therefore, a ferrous metal is one which contains a certain percentage of iron, and a non-ferrous metal is one that does not contain any iron.

In hardening steel by the old, familiar method of heating it to a cherry red and then dipping it in oil or water, remember what the experts say: if the steel is dipped in water, it will have more hardness but will be more brittle than if dipped in oil.

A dull, satiny finish can be obtained on most metals by rubbing it with a pumice and water mixture. The mixture should be applied and rubbed vigorously with a coarse brush.

**COLD CHISELS**  
Cold chisels are a necessary part of the workshop equipment of anyone who plans to do very much metalworking. They are excellent for cutting and chipping sheet metal, cutting rods and bars, slicing rivetheads and various other tasks. Professional workers find that one of their most practical uses is the splitting of obnoxious nuts that will not turn with a wrench. If the nut is rusted or frozen or fuses to turn for any other reason, and it is essential that it be removed, soak it with oil or kerosene. Wait five or ten minutes to allow the oil time to soak into the entire area around the nut. Then place the cold chisel against the nut and strike it with a hammer until the nut splits in two, after which it can be easily removed.

While riveting at one time required special tools and a certain skill, it now is possible to do small riveting jobs with new type rivets. All that is necessary is to bore a hole through the pieces to be joined. The rivet is pushed through the hole and held fast with a sort of cover that screws on to the rivet.

First magnitude stars are not necessarily the largest stars, but are those which, because of their nearness to the earth, appear the largest and brightest to the naked eye.

## Professional Method Is Given Of Removing Scratches Or Burns From Valued Piece Of Furniture

There are many different pet methods of removing a cigarette burn from a table top. Here is one method that a professional refinisher uses. However, he warns ahead of time that it is a tedious job requiring care and patience. But, he explains, it is worth it if you have a particularly fine piece of furniture which needs attention.

First step is to sand the area of the blemish with a very fine grade of sandpaper. Continue the sanding until the mark is removed, but always keep a light touch so that too much of the wood is not taken off.

Next, stain the sanded area to match the original finish. To be sure you have the right color, try it out on a piece of the furniture which cannot be seen, perhaps the underside of the table top. Allow the stain to dry for at least 24 hours, then apply a coat of sealer. If you do not have any sealer on hand, ask your dealer to give you one that can be used over a stain. Shellac will do the job, but it must be thinned at least 50-50 with denatured alcohol.

When the sealer is completely dry, about six hours is sufficient, sand the area again with a very fine grade of sandpaper until it appears perfectly level.

Use clear varnish on the damaged area, blending it in with the surrounding area. Lacquer may be used only if you are certain that the table top already has been finished with lacquer. If you are not sure, use varnish. Let it dry 24 hours or more.

**WET SANDING**  
Next comes what is known as wet sanding. For this you will need an extra fine grade of waterproof sandpaper, a rubber block and some light lubricating oil. Wrap the sandpaper around the rubber block, apply a few drops of oil to the area and sand lightly. This should be continued until the damaged area begins to resemble the rest of the table top. Apply a little more oil each time the area begins to get dry.

The wet sanding will produce a satin-like finish, the kind given to most furniture. But if the rest of the table shines more than the patched part, you can bring up a lustre by rubbing with rottenstone and oil.

Does it sound like a lot of trouble? Well, maybe, but as our professional friend points out, it is worth it to restore the appearance of a treasured piece of furniture.

If you have a fireplace, you can make good use of the sawdust and other wood shavings that accumulate in a workshop. Put the sawdust in small paper bags. Then when a fire is started in the fireplace, place one or two of the filled bags between the logs and watch how easily and quickly you get a roaring blaze.

## Use Plastic Webbing As Furniture Cover

Much of the finest made casual furniture comes with brightly colored plastic webbing. Its popularity is not hard to understand, not only because of its informal appearance, but because of its comfort, durability and ease of cleaning.

Once available only in ready-made furniture, plastic webbing can now be bought by the yard, either to repair old chairs, chaise longues and the like, or in the construction of your own furniture.

Attaching the webbing to the frame of an old wooden chair is easy, since it can be done without the need of any special tools. The webbing is intertwined by hand and then attached with tacks.

Attaching plastic webbing to metal frame chairs used to be an impossible job for the amateur. Now, with the aid of a kit, which contains special tools as well as the webbing, it can be done at home.

The manufacturers point out that the webbing will not fade under exposure to sunlight and will not rip or tear under the greatest strain.

There are many methods and many gadgets for preventing a pane of glass from being splattered when painting the window frame. One of the simplest is to wet strips of newspaper and press them against the pane. The strips can be peeled off easily when the painting job is done.

## JIM ENGLISH WINS AWARD AT CHICK SHOW

Entry of chicks by J. A. English and Son, of Viewacres Poultry Farm, took second prize in the second annual B.C. Baby Chick Show held at New Westminster, March 8, 9 and 10. It is the only show of its kind on the North American continent with approximately 100 entries from British Columbia and the state of Washington.

Entry of 25 chicks was awarded 95 out of a possible 100 points and consisted of a brood of ROP sired Light Sussex strain.

Judging is based on the commercial characteristics of the chicks, vigor, condition, uniformity of size and weight. Judge was J. H. Nichols, of the state of Washington.

## Your stake in the search for Better Health

Everyone has a vital interest in science's efforts to help us live longer. But life insurance policyholders have a special stake in this work.

You see, certain important medical research projects are supported wholly or in part by funds from all the life insurance companies in Canada with their millions of policyholders. As a result, skilled scientists in many Canadian medical research centres can carry on their task of attacking some of mankind's deadliest enemies. Their names: cancer, heart ailments, tuberculosis and poliomyelitis.

Other vital studies are supported in a similar way. These focus on processes of ageing, cellular growth, dental hygiene, pregnancy complica-

tions, thyroid hormones, blood clotting and asthma, to mention but a few.

Will all these efforts help you and your family to live longer, healthier lives?

Yes! Thanks chiefly to the advance of modern medicine, babies born today can expect to live about 20 years longer than those of 50 years ago. Many dread diseases have been banished or controlled. Ahead lies further progress that will surely benefit you and yours.

And, if you are a life insurance policyholder, you also have the satisfaction of knowing you have participated in this program designed to bring the blessings of good health to all!

### AT YOUR SERVICE!

A trained life underwriter — representing one of the more than 50 Canadian, British and United States life insurance companies in Canada — will gladly help you plan now for your family's security and your own needs in later years. Rely on him!

**MERLE ANN MEYERS**, 17-year-old member of Winnipeg's Little Theatre group, posed as Hollywood starlet "Dawn Sommers" and duped University of Saskatchewan students and faculty. Flown to Saskatoon to aid a blood drive, the hoax was not made public until she returned to Winnipeg. Miss Meyers brought back a U. of S. engineers' sweater, a stethoscope from the medics, a straw hat from agricultural representatives and a parrot from the law students. Result of hoax — some 61 percent of the students donated blood.

## Socred Budget Is Most Important In History Of B. C. Says Local MLA

The Budget, presented to the Legislature by the Social Credit Government this session, is of greater importance to every citizen of the province than any other budget which has ever been presented in the opinion of Frank Richter, MLA for the Similkameen.

Mr. Richter's report follows: "The net debt has now been reduced by \$36,177,861, since the 15th of February, 1952. This means that the net debt has been reduced to the extent of \$38 for every citizen of the province."

The Social Credit Government has placed British Columbia, along with our sister Province of Alberta, ahead of all other provinces of Canada in the field of pensions. The \$5 per month is in addition to the \$10 already paid, totalling \$15, and I would point out that the Social Credit Government of Alberta pays a similar amount and Saskatchewan pays in total only \$2.50 — no other province pays a provincial bonus at all. Our budget defined that the \$5 increase also applies to Old Age Pensioners, Blind Pensioners, Mothers' Pensions and to all those receiving social assistance.

The budget announced that children's clothing and children's books and games will be completely exempt from the sales tax; car registration fees reduced from \$10 to \$1; complete removal of the 10 percent liquor tax and a reduction of the amuse-

ment tax.

One of the most important items of government business enacted at this session is the amendment to the B.C. Hospital Insurance Service. Much thought and study has been given to the whole problem of hospitalization and I sincerely believe that the social service tax is the soundest answer to a service the vast majority of people desire. By abolishing the cumbersome premium, or wage-deduction method of payment, an unwieldy collection system is done away with.

It was apparent that the fixed premium method of collecting revenue for the hospital insurance service was nothing more or less than a "head" and "poll" tax totally unrelated to the actuarial need or economic worth, and to operate effectively, would have required a constant census of the whole population with a means test for every family and an army of enforcement officers. The whole idea was repugnant to Social Credit policies.

The best possible solution might have been an Income Tax basis but our tax agreement with Ottawa denies us this right, and the next best alternative is a Social Services tax, which is a levy on the spending power of the consumer, but which has a large number of exemption clauses so as to eliminate almost entirely the aggressive features that would otherwise apply.

The two percent increase in the Social Services Tax, replacing hospital insurance premiums will mean a married person on a small wage or pension, averaging \$1,200 annually, will only be required to pay \$3.60 per year compared with the former hospital insurance premium of \$39, or a yearly saving of \$35.40.

A family of four, with an income of \$260 per month, instead of paying \$39 under the present system of premiums, will pay approximately \$14.60, enjoying an immediate saving of \$24.80 per year. By abolishing the cumbersome premium collection system, approximately a million dollars will be saved to the taxpayers each year and I believe the new measure will give the greatest benefit to the largest number of people and this is what we strive for in a progressive community. Under the new scheme, all will be able to contribute and thus spread the cost of the worthwhile service as equally as can be devised.

Those who have paid premiums in advance will be refunded their proportionate return.

By this Act, we lead Canada in progressive legislation. More than that, we create better living conditions for ourselves and our children. It is our service and it is up to each individual to realize this fact.

## Fruit Transportation Important Topic At Fruit Wholesalers Meet

The first refrigerator railway car moved out of California in the year 1887. In the following year the first Canadian refrigerator car was built. These items of railway history were given in an address by G. H. Ballie, vice-president of the eastern region of the Canadian Pacific Railway, delivered to the 29th Annual Convention of the Canadian Fruit Wholesalers' Association held recently in the King Edward Hotel, Toronto. He declared, too, that all railways were deeply concerned with the development of the right type of refrigerator car to serve the fresh fruit and vegetable industry. Over 17,000,000 have been spent in this phase of railroading in the past few years.

Transportation was an important topic at the Fruit Wholesalers' Convention and was discussed in all its phases. C. M. Parke, president of the Canadian Automotive Transport Association, told of the tremendous increase of trucks for commercial hauling. He discussed the long haul of produce by trucks and its development in the last ten years and the many problems that had been overcome in that period of time.

The possibilities of air freight in the produce industry were covered by Hugh Johnson, director of cargo sales of the Trans-Canada Air Lines. At present the use of air transport for hauling fruits and vegetables was confined chiefly to the movement of certain commodities at various seasons of the year. Some fruits and vegetables were moving on regular schedules to outlying points inaccessible to other types of transportation. There was a future being planned for the use of air freight for the movement of fresh fruits and vegetables.

Labor was another topic much to the fore at the Wholesalers' Convention. The installation of modern and efficient machinery for the handling of produce would help to offset high labor costs. Untrained personnel

could make such modernization worthless, so personnel training programs, tried and proven in other fields, should be adopted to the produce industry.

Over 500 were registered as attending this convention. Every province in the dominion was represented as was almost every important shipping centre in the United States. A. K. Loyd and J. B. Lander of B.C. Tree Fruits Ltd., who had been at the 32nd annual meeting of the Canadian Horticultural Council in Ottawa the previous week, went on to the Wholesalers' Convention. Also present from British Columbia were K. W. Kinnard and L. R. Stephens from the Okanagan Federated Shippers' Association; R. Stockton, president of the Interior Vegetable Marketing Board; W. Gordon Wright, of the Board of Governors and D. C. Stevenson of the sales staff of B.C. Tree Fruits Ltd.

Japan's Inland Sea, one of the most beautiful waterways in the world, is in places one of the most dangerous. Tides twice a day rush in and out through a labyrinth of islands, reefs and hidden rocks, creating tide rips and whirlpools.

## Home Nursing Classes Sponsored By Red Cross Here Well Attended

Home nursing classes conducted by Red Cross in Penticton last year under the guidance of Mrs. L. Traviss proved popular when more than 50 attended the two classes held during 1953. Instruction in caring for the sick at home is, of course, most useful. However, a number of young people qualified for employment at our hospital through this training. Each course extended over a period of three months. Mrs. Traviss has this important work under her wing again this year and any interested in participating should contact her.

## The Most Exciting Story in the World Today!

## Canada on the march

FROM THE GREAT LAKES to the Arctic Circle, from the Atlantic to the Pacific, Canada is on the march... developing its tremendous resources, harnessing its incalculable power... fashioning a story of progress more exciting than that of any other nation in the world today.

Across the land, Canadians are marching ahead, hand in hand, to the rhythm of the motor, the drill, the hammer and the machine.

Vast iron ore deposits in Labrador... vital uranium in the East and in the West... new prospecting potentials in the far north... oil flooding from the Prairies and the pipelines to carry it... more precious metals... mountain-

moving developments in B.C. ... great new chemical plants ... new factories ... new industries ... new products ... more food from fertile farms ... fish from teeming waters ... more people enjoying more benefits of better living—this is the story of Canada, the most exciting story in the world today!

Since 1817 the Bank of Montreal has moved ahead with Canadians in every walk of life... with great industries and private citizens... with farmers, fishermen and lumbermen... with merchants, manufacturers and municipalities... lending its support to worthwhile Canadian developments of every size and nature.

**BANK OF MONTREAL**  
Canada's First Bank

MOVING AHEAD WITH CANADIANS IN EVERY WALK OF LIFE SINCE 1817

If you have a savings or business account at the B of M you may rest assured that your money has been working regularly for you and for Canada. Depositing your money in any one of the B of M's 600 branches means that you are moving ahead to prosperity, hand in hand with Canada as she writes the next page in the most exciting story in the world.

## DON'T ENDURE "MORNING SLUGGISHNESS"

Do you wake up morning after morning feeling tired out? And does that dull, heavy sensation drag on all day, making life a misery?

Don't put up with it.

Chances are the whole trouble stems from sluggish kidneys and constipation. Your system is becoming clogged by accumulated poisons that are slowing you down.

Kruschen Salts are a wonderful help at these times. In many ways they are identical with the waters of well-known Mineral Springs... in other words, much more than a simple laxative. For Kruschen contains diuretic ingredients (for the kidneys). So they help you to get rid of waste matters through healthy, natural bowel and kidney action.

Millions of people use Kruschen. They have found that less than half a teaspoonful in hot water works wonders. Find out what Kruschen can do for you from your nearest druggist today.

LOGGING AND WATERSHED

SUMMERLAND—Some concern

has been expressed by

Summerland council regarding

logging operations behind Peach-

land which may be, or might in

future, affect Summerland water

system and the Trout Creek

watershed. Councilors H. R. J.

Richards and J. R. Butler will

visit the site as soon as it is

possible to get in there.

Moss grows on telephone

wires in Puerto Rico.

**HANGING PANELS PROVIDE** an ingenious acoustical system carrying sound to all parts of the Caracas, Venezuela auditorium, in which Western hemisphere delegates met recently for the 10th Inter-American conference.

## Summerland Council Orders Wood Pipe For Irrigation Project After Investigation

SUMMERLAND—Summer-

land council has ordered wooden

stave pipe for its Jones Flat

irrigation project which is to

be installed this spring.

There was complete investigation

before the decision to use

this type of pipe was reached.

Although the council was satisfied

that wood pipe would be satisfactory

due to experience here,

on receipt of two letters from

H. C. Whitaker who had expressed

doubts at a ratepayers' meeting

regarding its use, further opinions

were sought.

Among these were Major H.

W. Hodson of the government

South Okanagan land's project

at Oliver, and H. Wade, water

engineer at Kamloops. The former

was entirely in accord with

using wood pipe while Mr. Wade

thought that it might not prove

satisfactory unless full of water

all of the time.

Examples of pipe displayed at

Tuesday's council meeting, two

of which had been in use for

seven years, one above ground

which showed no sign of rot,

another in use the same number

of years, but which had been

partly underground. The latter

had decayed about a half an inch

on the side which was buried.

A piece in use 40 years, 14 of

these above ground, was in excellent

condition with only slight

signs of wear.

Opinion of Reeve F. E. Atkinson

and water foreman E. Kercher

is that pipe on top of the

ground lasts almost indefinitely

here, and that setting is "due

more to a condition of the soil

than to whether it is wet or dry.

Other reasons cited for its use

were: quickly available, cheaper

to install, readily repaired, easy

to keep in place, easier to service,

frictional loss decreases

with time, transferable with little

effort.

The new pipe will be laid

above ground in all places where

this is feasible, but Mr. Kercher

said there are several spots

where it will have to be put

underground. One of these is 600

feet in the first step in the

installation in Canyon Valley.

Apparently plastic pipe has

not proved successful in the

South Okanagan so far. Council

heard of two places, Cawston

and Grand Forks, where this

type of piping was put in and

before the water could be turned

on, moles had made holes in it.

Mr. Kercher reported the

spring work well in hand with no

shortage of labor and everything

underway to handle the Jones

Flat project with dispatch.

FOR HEALTH REASONS

SUMMERLAND—Regarding

the application of Gordon

Udell for council permit to move

the residence of the present post-

office to the back of the lot as

a dwelling, P. Alcock, summerland,

did not recommend the action

as there would be too many

buildings on one lot to conform

with health standards. Mr. Al-

cock acquainted Mr. Udell with

this and on hearing this Mr. Udell

was completely in accord

with the health unit policy, with-

drawing his request, and permit

## \$119,000 School Budget Accepted At Summerland

SUMMERLAND—Summer-

land council passed accounts in

the amount of \$34,339.82 at Tues-

day's council meeting, and ac-

cepted the school budget of ap-

proximately \$119,000 which had

been revised and lowered about

\$200.

Application of Mrs. A. Fen-

wick for purchase of a piece of

property adjoining the Paradise

Flat land was accepted at a bid

of \$250. The land was put up for

bid as a number of councilors

thought it would make a good

building site.

National Cash register 10-

year servicing contract was ac-

cepted at \$46.80 per year.

It is hoped that draft of the

zoning bylaw will be ready next

week with the whole council to

attend a special meeting to go

over it.

Application of John Graham

to subdivide will be given further

consideration.

Oldest academic building of

any college in the United States

is the Sir Christopher Wren

building at Cambridge, and Mary

College, Williamsburg, Va.

## PEACHLAND NOTES

Regular meeting of the Peachland Municipal Council was held last Thursday with Reeve G. W. Hawksley, Councilors L. Ayres, A. E. Miller, F. Khalembach and H. Birkelund present.

Business arising from the minutes was a \$25 donation to the Polio Fund. Annual charges for public health will be \$184. In conjunction with the Women's Institute the clerk was instructed to arrange for a suitable radio broadcast for the TB clinic to be held here March 25 from 1 p.m. to 4 p.m.

New business handled was the acceptance of the police contract at \$1000, plus transportation of six cents per mile over 3100 miles.

School estimates of \$11,443, an increase over 1953 of \$237 were accepted.

Notices of a meeting of the mission to be held on March 16 at 7:30 p.m. have been sent out. Members approved by council are Mrs. C. Whinton, Mrs. G. Smith, Mrs. M. Topham, Mr. C. Parker, Mr. V. Kaylor, Mr. G. Eddy and Mr. H. Birkelund.

It was decided all organizations with the exception of the P.T.A. Girl Guides and Scouts, who wish to use the hall and kitchen would be required to pay 75 cents per unit or \$150 with kitchen.

A survey is to be completed to find out the feasibility of closing Lang avenue.

Willows are to be planted on the Lakeshore Beach, one-half hour parking is to be enforced in front of the post office.

Donald Gregg has returned after spending the winter in Long Beach, California.

A get-together of old friends was held at the home of Mrs. C. Whinton on March 12 with Mrs. S. Scammell, of New Westminster, as guest of honor. Mrs. Scammell will visit at the home of Mrs. Z. Blower for a few weeks.

Education Week was celebrated at the Peachland elementary school last Friday, with open house. Over 70 parents took this opportunity to meet the teachers and view the school work. The P.T.A. sponsored a school fair in conjunction with the day and awarded cash prizes of \$40 to the lucky winners. The Junior Red Cross served tea and enriched their funds considerably.

Mr. and Mrs. S. G. Dill have returned after a visit to the coast.

Mrs. and Mrs. B. Lloyd-Jones have left for Vancouver on a short holiday.

Mining, Sawmill, Logging  
and Contractors'  
Equipment

**NATIONAL  
MACHINERY  
LIMITED**  
Granville Island  
Vancouver 1, B.C.

Mr. and Mrs. R. Redstone have left for Oshawa for a holiday.

Mr. and Mrs. Don Miller are being congratulated on birth of a new baby girl.

Mr. and Mrs. John Cameron have returned after a holiday on Vancouver Island.

Mr. and Mrs. O. Duquemin announce the birth of a son.

Mr. Earl Sutherland has returned home after several months in Vancouver.

## Local Red Cross Centre Hive Of Activity In 1953

The local Red Cross centre was a hive of activity during 1953. In addition to providing quarters for storage of used clothing for the local welfare department, disaster relief supplies such as blankets, sheets, first aid equipment, and a work room for the groups engaged in making garments, bandages for blood transfusion, and quilts, etc. It was a meeting place for the Department of Health and Welfare baby clinics and immunization clinics. The Women's Institute sewing group also met there as well as the Senior Hospital Auxiliary, the Junior Hospital Auxiliary, the St. John's Ambulance Association. For part of the year the Red Cross Centre was a meeting place for the I.O. D.E., the SPCA meetings, Girl Guides Association executive meetings, the Boy Scouts Association executive meetings, and the Soroptimist Club meetings.

The Metropolitan Museum of Art at New York has a collection of 4000 musical instruments.

## SCHOOL FINANCING DISCUSSED BY BCTF EXECUTIVE J. A. SPRAGGE

At a public meeting in the high school auditorium last Friday night, citizens were entertained by the high school band and junior choir. It was part of the program held in conjunction with education week.

Highlight of the evening was an address by J. A. Spragge, executive assistant of the B.C. Teachers' Federation. Mr. Spragge is also secretary of the joint committee of the B.C. School Trustees' Association, P.T.A. and the BCTF of educational finance.

"Present system of school grants and any suggested alternative plan must be judged in the following manner," said Mr. Spragge, "does the plan result in fair treatment of local taxpayers in all areas, rural and urban alike? Does it provide a proper sharing of costs between provincial and local authorities? Does it result in truly economical expenditure of provincial funds and if not will it be impossible to sell it to the provincial government?"

Present system of grants fails to meet these requirements, Mr. Spragge asserted, and the system of special aid to rural areas is educationally unsound, inasmuch as it tends to destroy the authority of school boards and promotes centralization of control.

"Sales tax grants are unfairly distributed," continued Mr. Spragge, "they are educationally unsound because they are given to municipalities instead of the school board."

"The result is that the money is credited to the general municipal fund instead of to school funds. This, in turn, makes school tax rates appear some 15 mills higher than they should."

"Besides," he continued, "the scheme would cost the provincial treasury \$6,500,000 more than it is now spending on education and more than \$4,000,000 of this would go to the wealthiest school districts in the province."

Mr. Spragge did not believe the government would approve a scheme that necessitated giving four million dollars where it is not needed in order to give two million where it is needed.

"The only plan that meets the requirements is a system of equalization grants," Mr. Spragge concluded. "About one-third of money furnished by the government is on this basis. All that is required to solve the educational finance problem is to put the whole amount on the same logical basis."

## Last Rites Held Monday For Boer War Veteran Here

A veteran of the Imperial Army and the Boer War and resident of British Columbia for 36 years, Alfred Atherton passed away last week at the residence of his daughter, at Osoyoos.

A former resident of Penticton, Mr. Atherton came to Canada in 1908 and retired from the CPR shops where he worked as a pipefitter in 1930.

He is survived by two sons and one daughter, Thomas, Penticton, James, Prince Rupert; Mrs. W. C. McConachle, Osoyoos; five grandchildren, three brothers and three sisters, J. J. Atherton and T. C. Atherton, Vancouver, E. B. Atherton, Mrs. L. Shales, in England; Mrs. W. Lovett, Calgary, Mrs. Charles Masse, St. Paul, Alberta.

Funeral services were held in St. Anne's Church, on Monday, Rev. J. S. Mullany, officiating. Committal family plot, Lakeview Cemetery, Penticton. Funeral Chapel in charge of arrangements.

Palbearers were Bill Monks, William Baldrey, Arthur Causser, Jack Burgess, Anthony Blois and Joseph J. Ruth.

**STRONG BOARD OF TRADE**  
Frank Laird advocated a strong and lively agricultural committee when he spoke at last Thursday's Board of Trade meeting.

"If your agricultural committee is functioning properly you will get the co-operation of the BCTFA," stated Mr. Laird.

Mice begin to breed at the age of 25 days.

THE U.S. ARMY AND AIRFORCE announced existence of their XV-1 "Convertiplane", first military aircraft ever built to take-off and land like a helicopter yet convert in flight to or from a high-speed plane. The plane has a jet propelled rotor for vertical operations and a push-type propeller for forward flight.

## Keremeos - Cawston Growers Opposed To FFVW Demands

A recommendation that wages of Fruit and Vegetable Workers Union for the forthcoming year should revert to the 1952-1953 scale has been passed by Keremeos-Cawston local of the BCFGA.

At the same time they passed a resolution strongly protesting demands of workers for a wage increase. The union has signified its intention of seeking 10 cents an hour and other changes in the contract.

The resolution from Keremeos-Cawston goes on, "we commend the BCFGA executive stand, as reported in the press, that no increase in wages can be allowed at this time."

Another recommendation deals with setup of the industry labor negotiating committee, and calls for a change.

It reads: "The Keremeos-Cawston local of BCFGA recommend to the executive of BCFGA that the personnel of the industry labor negotiating committee be changed to truly represent the main interest of this industry who are the growers."

"We would recommend that this committee be changed to six growers, two shippers, one member of the B.C. Tree Fruit Board and the secretary of Okanagan Federated Shippers."

A policy of "hold the line" has been expressed by many growers throughout the South Okanagan who claim that a 10 cents an hour wage increase would mean addition to production costs of five and a half cents a box and would, in effect, price the grower out of the market.

## Annual Teen Town Mayors' Convention Kamloops April 21

Kamloops Teen Town Council, hosts for the British Columbia Teen Town Mayors' Conference to be held April 21 to 24, has lined up a program ambitious enough to rival any adult conference.

This conference will start on Wednesday, April 21 at 9 a.m. in the morning with registration taking place until noon. At 1 p.m. a bowling tournament will be held between all the visiting teen towns. At 5 p.m. the estimated 400 delegates will journey to Hacienda, 14 miles from Kamloops, to a banquet, followed by an evening of dancing and entertainment.

On the second, third and fourth days from 9:30 a.m. until 12 noon discussion periods will take place where all teen town problems will be discussed.

From 1 to 6 on each of these afternoons tours have been planned. One afternoon the visitors will be taken on a tour of the new Royalite Oil Refinery recently constructed at Kamloops. On another day they will be taken on a tour of the Trans-Mountain pumping station just on the outskirts of the city. The highlight of all these entertaining features will be the afternoon on which the visitors will be taken on a flight on the new CPA Convair Airliner. They will fly in this new aircraft from Williams Lake to Penticton on a round trip familiarity cruise.

## Local Committee Still Seeking More Data On Proposed Lake Bridge

A. J. Cowie, who heads the Board of Trade's bridge committee, told members at their regular meeting Thursday night, that it was still the committee's opinion that more information about the bridge should be obtained.

"It is our hope that Premier Bennett will be able to come here in the not too distant future and explain the situation more fully," said Mr. Cowie.

Youngsters' marbles make perfect darning eggs for glove fingers.

On the third evening a square dance will be held and to finalize all activities a Mayor's Ball will be held on Saturday, April 24, with music supplied by the leading teen age band in Canada, the Kamloops Rhythm Kids.

Attending this conference will be many teenagers from each and every teen town in B.C., including Penticton. The mayor and one other teen town will be the official delegates.

## Awards Given In WCTU Contest

An interested and attentive audience gathered in the lower hall of the Penticton United Church on Monday evening, March 1. The occasion was the annual elocution medal contest, sponsored by the Women's Christian Temperance Union. In the unavoidable absence of the president, Mrs. M. Jones, Mrs. E. Deringer, the provincial superintendent of medal contests, acted as chairman and called on Rev. J. A. Roskam to open the meeting with a short devotional period. Later, Mrs. Deringer presented awards to girls and boys competing in the contests.

In the junior group, No. 1 — nine years and under, Darlene Gibrath received the Bronze medal.

In the junior group, No. 2 — 10 and eleven years — Shirley Lepin won the silver medal; and in No. 2B, Carol Christian also received a silver medal.

In the intermediate group — 12 to 14 years, Marcia Young was the winner of the gold medal. There were 26 contestants in these four groups.

George Searcy, assistant to the minister of the United Church, Miss Ruth Adams, and Mrs. J. A. Roskam, were the judges and, Mr. Searcy in announcing the winners, said the judges had great difficulty in making decisions as the marks were very close in all groups. All the contestants were congratulated on their showing and were presented with prizes, as were the children who entertained with songs.

Plano solos by Miss Donna Marie Hauser were very much enjoyed and appreciated.

While awaiting the report of the judges, Mrs. Howard Milne, of West Summerland, district president of the WCTU, congratulated the young people taking part and addressed a few remarks to the audience.

A few statistics revealed the fact that Canada is consuming more alcohol per capita than the U.S. She urged whole-hearted cooperation in regard to the petition being circulated at the present time. Mrs. Deringer thanked the judges for their work, and urged the young people to go on for further medals in the future.

## Plan For Small Playground Opposed

SUMMERLAND — Councillor H. R. J. Richards reported to Tuesday's council meeting that the park's board now had a petition from lower town residents not to go ahead with plans for making a small park on the south side of Frank Daniel's store on property which had been turned over to them by the corporation.

The plan was formed because of repeated requests from residents there that some action be taken in providing a playground for children and a site where older people might congregate. Since the land is in the hands of the park's board council took no action.

Before settlers came to America, Indian bird lovers attracted martins to their teepees by attaching hollow ground gourd nesting boxes to tent poles.

# Vancouver Rehabilitation Centre Returns Victims Of Crippling Diseases To Full, Useful Life

Life at the Vancouver Rehabilitation Centre is not all work and no play but it is not the other way around either — it is in fact a combination of the two, with one thought in mind as the centre's name indicates. It is a place where victims of polio, arthritis, rheumatism, cerebral palsy and industrial accidents can once again become useful citizens in the community.

"Helping the individual to help himself" could well be a slogan of the bright, spanking modern building located at 900 West 27th Avenue, in Vancouver. And to the Kinsmen club goes a major part of the credit for sparking the idea which mushroomed from a modest 13-bed and gymnasium beginning in 1949 to the present 53 bed unit of today.

Story begins with purchase of property in 1949 by the Kinsmen for \$6,000, furnishing of the first wing for \$5,000, construction of the swimming pool and contribution of \$5,000 to addition of other wings.

Second unit of 20 beds was added in 1950 and additional 20 bed units were added this month.

The centre also treats a total of 150 out patients at capacity and 40 child victims of cerebral palsy.

Operating revenue comes from two main sources. About one third is in the nature of a provincial grant and the balance is made up of money from the B.C. Polio Fund, Workmen's Compensation Board, Provincial Welfare Department and out-patients' fees. Money collected from out-patients is very reasonable.

**LARGE STAFF**  
Staff total is 36, consisting of three doctors, all specialists in their respective fields, an orthopedist, a physical-medical specialist and a general surgeon.

There is considerable work done by the surgeon. For example, a tendon is often transferred from a comparatively unimportant middle finger to a paralyzed thumb, restoring the otherwise useless hand to some value. The same type of operation applies to the foot.

Others on the staff include physiotherapists, three physical training instructors, three brace makers, two social welfare workers, two pre-school supervisors, one school teacher, one speech therapist, two chauffeurs and 14 general staff.

**HUGE FLOOR SPACE**  
Growth of the centre can best be shown by the fact that in 1949 the building had floor space of 13,000 square feet and operating expenses of \$13,000. Today, the floor space covers 53,000 square feet, has an operating expense of \$200,000 and capital outlay of \$600,000.

It is significant that the Vancouver centre is one of two in Canada and the only one designed as a wheelchair unit. The other centre is in Toronto. There are no such places in the northwestern United States and many American patients as well as from other Canadian provinces seek admittance. This is given to British Columbia patients.

In addition to what has already been told of the building there is a large lecture room where instructions in treatment and rehabilitation are given nurses and medical students.

Another factor of importance is the principle that the same physiotherapist carries the patient through from the day of his admittance to his discharge. In this manner the case history of the patient is known and the method of treatment is somewhat simplified.

**PATIENT TESTIMONIES**  
Testifying to faith in the treatment offered at the centre is the case history of P. D. "Pat" Mulligan, Penticton insurance salesman, who was stricken with polio last June. Today, Mr. Mulligan is able to get around in his work with the assistance of two canes and, although not recovered, it appears likely he will eventually be 95 percent normal again.

Mr. Mulligan said, "Among the treatments I received was bar-lifting. I didn't see what good that would do me because I had no intention of becoming a second Doug Hepburn when as an insurance man about all I had to be able to lift was a fountain pen."

Here is another actual case history. A millwright from a B.C. community, 42 years of age and father of two children, became a polio victim. Unable to resume his former occupation he was a potential welfare case for life except for one thing — he had ambition.

**FINANCIAL AID**  
Polio fund and welfare department undertook to finance him in a two-year shoemaking course, meanwhile taking care of his family. They followed this up by investigating the feasibility of a shoemaker's shop in the man's home community and found the venture economically sound. Next step was to loan the man \$2,500, interest free, and his fellow citizens undertook to build his shop.

The man is now a wage earner and is paying back his loan at a small monthly rate. Another case history: A polio victim, formerly a plumber and unable to return to that type of work is being given a course as a plumber's appraisal expert.

For married women, the centre concentrates on teaching them how to plan their kitchen and daily chores to best advantage where they are unable to resume normal duties.

Function of the centre is perhaps best summed up in the words of manager E. J. Desjardins, "We are a vital part of community life, something in the nature of a school, church or

post office." And he added, "we welcome visits from people and are always glad to show them through our establishment. It will be an education as to just what we are able to do with the less fortunate in your community."

## Funeral Services Held Tuesday For Charles G. Minns

A resident of Penticton since last August when he purchased the Eckhardt Apartments Charles George Minns, passed away suddenly on Sunday, at the age of 73.

Born in Hull, England, he was apprenticed to the draper's trade in London, where he served until coming to Montreal in 1905. From Montreal he went to Toronto and then to Winnipeg where he was joined by his fiancée from England.

By 1908 he was manager of the gents clothing department for Trites Wood, Fernie, just in time to go through the historic Fernie fire.

Leaving Fernie in 1912 with his wife and infant son he worked westward through Nelson, Greenwood and Kelowna, later moving to Langley Prairie.

After having been turned down for service in the first world war he went to Prince Rupert, taking over management at the H. S. Wallace Company. He arrived in Prince Rupert during the height of a flu epidemic and was joined a year later by his family. He remained in Prince Rupert until his retirement to Vancouver in 1942.

During the 24 years he resided in Prince Rupert he held office as president of the Board of Trade, the Chamber of Commerce and was also Commodore of the Prince Rupert Rowing and Yacht Club. He was a member of the Oddfellows Lodge and Tye Masonic Lodge.

Retiring to Vancouver in 1942 after his wife had suffered a serious illness he took over operation of an apartment house in the west end.

In Penticton, Mr. Minns was a member of the Kiwanis Club. He is survived by his wife, Mrs. Frances Maud Minns, Vernon, a son, George, Penticton, and two grandchildren, Frances Jane and Charles George, Jr., of Penticton.

Funeral services were held yesterday at St. Saviour's Anglican Church, Rev. A. R. Eagles officiating with committal at Lakeview Cemetery.

Palbearers were T. W. Bryant, E. Gibbs, M. D. MacNair, Jack Young, Gless Winter and George Arsen, Penticton Funeral Chapel in charge of arrangements.

## MacNair Speaks To Kiwanis On Motor Transport

"Motor trucks are vital to your economy," Maurice MacNair told Kiwanians at their noon luncheon meeting in the Hotel Prince Charles.

Mr. MacNair of O.K. Valley Freight Lines Limited, began his brief talk with a few of the salient details in the history of the trucking industry in North America. The industry celebrated its fiftieth birthday in the United States last year and here, in Canada, is about 30 years old, he said.

Most of the large fleets in operation today began on an owner-operator basis, primarily the truck owner driving his vehicle in a one unit driving business. The motor truck business, Mr. MacNair said, has played a large part in the development of Canada. He pointed to the essential work performed by trucks in the building of the Alaska Highway and their employment in the new found oil fields of Alberta. The reason, said Mr. MacNair, is the flexibility of highway transportation.

Everything you eat, wear, or use has at some time in its route to the consumer been moved on rubber, Mr. MacNair concluded.

Since the beginning of the Christmas Seal sale idea to raise funds for anti-tuberculosis work, about 70 countries have used the method. Collecting seals of this kind is a hobby to thousands throughout the world.

## Notice To Hotel And Resort Owners

A CONVENTION of the B.C. School Trustees Association will be held in Penticton on September 29th, 30th and October 1st, 1954.

Operators wishing to accept reservations are to contact the School Board Office, 383 Ellis Street, Penticton, on or before April 15th, advising the following:—

Number of rooms available together with a description of same.

Rates of the various types of accommodation.

L. E. CHAMBERS,  
Secretary-Treasurer,  
School District No. 15.

## TAX CORNER

Where Do I Go From Here?

**SALE OF TIMBER**  
Q. I own land on which there is a stand of timber which I may sell to a sawmill operator on a "stumpage basis." I have been told that stumpage fees I receive from such a sale are considered to be income for taxation purposes. Is this correct?

A. Yes. The Income Tax Act provides that amounts received which are dependent on production from a property constitute taxable income even though they may be instalments of the sale price of the property.

**MEDICAL EXPENSES**  
Q. Late in 1952 my wife was confined to hospital with a serious illness involving heavy medical and hospital expenses which I paid in December of 1952 and January and February of 1953. I have made no previous claim for such expenses. May I make a claim in respect of all of these expenses in my Income Tax Return for 1953?

A. Yes. The Income Tax Act provides that a claim may be made in respect of medical expenses paid in any twelve month period ending in the Taxation Year provided no claim has been made for those specific expenses in a previous year.

If you have a personal Tax problem you are invited to contact

# School District No. 15 (Penticton) FINANCIAL STATEMENT

February 25th, 1954

To THE CHAIRMAN AND MEMBERS,  
Board of School Trustees,  
School District No. 15 (Penticton),  
Penticton, B.C.

We have examined the books and records of School District No. 15 (Penticton) for the year ended December 31st, 1953, and present herewith the following statements which are attached to and form part of this report.

"A" Balance Sheets (General and By-Law and Capital Funds).  
"B" Surplus Accounts.  
"C" Statement of Revenue and Expenditure.  
"D" Statement of Receipts and Disbursements—General Funds.  
"E" Statement of Receipts and Disbursements—By-Law and Capital Funds.

Our examination of the books and records of the School District entailed a verification of the Assets and Liabilities and a test check of the Revenue and Expenditure Accounts.

## ASSETS

Cash on hand and in bank: Cash on hand was verified by actual count as at date subsequent to the year end. Cash in bank was reconciled with the balances shown on the bank statements, which balances were further confirmed by letter received by us direct from the bank.

Accounts and Grants Receivable: We have examined outstanding claims on file and other supporting data in verification of these amounts.

Inventory of Supplies on hand: We have accepted the certificate of the Secretary-Treasurer as to the correctness of the quantity and valuation of the supplies on hand as at December 31st, 1953.

School Properties: Details of changes in these assets during the year are as follows:  
To the Chairman and Members,  
Board of School Trustees,  
School District No. 15 (Penticton),  
Penticton, B.C.

	Sites	Buildings	Equipment	Total
Balance January 1st, 1953	19,528.80	1,550,185.10	212,128.50	1,781,842.40
Completed Project—By-Law No. 2	2,435.95			2,435.95
Completed Project—By-Law No. 3	4,637.96			4,637.96
Provided by General Funds	2,508.83	2,405.83	5,312.07	10,226.73
Reduction of Architect Fees		600.00		600.00
	29,112.54	1,552,590.93	217,440.57	1,799,144.04

The completed projects during the year are as follows:  
By-Law No. 2 — Paving between Junior and Senior High Schools.  
By-Law No. 3 — Filling and paving Carmel Avenue School grounds.

## LIABILITIES

General: We have accepted the certificate of the Secretary-Treasurer that all known liabilities have been provided for on the books of the School District as at December 31st, 1953.

## CERTIFICATE

In our opinion, subject to the foregoing remarks, the attached statements are correct and properly reflect the true financial position of School District No. 15 (Penticton) as at December 31st, 1953, according to the best of our information and the explanations given to us and as shown by the books of the School District.

All our requirements as auditors have been complied with.

Respectfully submitted,

RUTHERFORD, BAZETT, SMITH & CO.,  
Chartered Accountants, Auditors.

## Stainless Steel Passenger Cars For CPR Trans-Canada Service

In 1953 the Canadian Pacific Railway Company announced that it would spend \$38,000,000 for 155 new light-weight stainless steel passenger cars which will enable the CPR to completely re-equip its two "Trans-Continental" trains between Vancouver, Toronto and Montreal. Delivery of the new equipment will commence this year.

The new equipment will introduce to Canada "Scenic-Dome" observation cars and "scenic-dome" coaches. The sleeping cars provide choice of drawing roomettes, duplex roomettes, "Murphy" type, folding into the wall, thereby making available the entire room space for lounge purposes. Bedrooms, compartments and drawing-rooms will contain private enclosed toilet and wash basin, and will be furnished with comfortable folding chairs for day use.

Tourist car space of the most modern design will also be available. Day coaches, with the popular full-length leg rest, reclining seats, picture windows and adequate washroom and toilet facilities, are another feature.

The "Scenic-Dome" coaches will be of the buffet-lounge type, serving "budget" meals and light snacks. New deluxe diners will provide regular table d'hôte and a la carte meals, enabling all passengers to enjoy the service most suited to their taste and pocket book.

Completion of the new passenger equipment program will place Canadian Pacific "Trans-Continental" trains second to none among the "name" trains operated on the North American continent.

Tuberculosis is not hereditary. It is a disease which is passed from one person to another. Those within the household of a TB patient, diagnosed or undiagnosed, are therefore in more than average danger. It is because so many family contacts developed tuberculosis that the idea it was hereditary fastened itself in the public mind.

Philadelphia is a Greek word meaning "brotherly love," and two ancient cities of Asia Minor once bore the same name.

## Employees Honor Former Manager Of Packing Plant Here

Last Saturday the employees of the Canadian Cannery (Western) Limited factory No. 78 presented P. F. Erault, retired manager, with a beautiful Lazy-Boy chair and a box of cigars. Mr. Erault has been associated with many of the Canadian Cannery plants throughout the valley and was manager of the Penticton factory for several years until his superannuation shortly after the New Year. Ned Pratt acted as master of ceremonies and presented Mr. Erault with his gift.

## City's Red Cross Loan Cupboard Fills Vital Community Need

The Red Cross loan cupboard at Penticton during 1953 was called upon on 26 occasions to supply sick room equipment. The local branch has available to anyone desiring the use of some hospital beds, wheel chairs, crutches, food trays, and other items required for home nursing. The committee under the chairmanship of Mrs. W. Deacon, R.N., makes this equipment available when required without any charge whatsoever.

## Sense Of Vocation In Life Key To Happiness, Minister Tells Rotarians

People with a "sense of vocation" in life are those who are most truly happy.

This was the thesis developed by the Rev. A. R. Eagles who, in addressing his fellow Rotarians at their weekly luncheon meeting in The Prince Charles Hotel on Monday, deplored the common feeling that so-called success in life, represented by the acquisition of wealth or "achievement", brings happiness. Young people, he urged, should be taught to pour out their lives in some way in the service of others. In this way they can be filled with joy, can attain a very real sense of accomplishment.

"They are not suicides," he pointed out. "They are not frustrated, or unhappy, or bored."

In particular, he asked that the youth be not discouraged if he seeks the church as his life work.

He spoke of other fields of work, in the professions, in re-

## Anniversary Party By Summerland Legion L.A.

SUMMERLAND — The 27th anniversary party of the Ladies' Auxiliary to the Canadian Legion was a jolly one, held after the regular meeting on Wednesday.

A suitably decorated cake was cut by Mrs. D. Taylor, Sr., a former past president who has been an active member for many years.

At the business meeting plans were made for catering to the "Whiz-Bangs" reunion dinner to be held here on June 6, and final arrangements were made for annual catering for the Scouts' Father and Son banquet, and the May sale.

President, Mrs. A. Johnson, was chairman.

A 300-year occupation of Britain began when Roman Emperor Claudius defeated the ancient Britons in 43 A.D.

search, in social service, all of which bring the same reward.

Introducing  
the sweetest little  
**"BIG CAR"**  
in the world!

The ALL-NEW

**Nash Metropolitan**

The news is out! Your answer to the high cost of motoring is here. No more staggering down payments. Months of budget-breaking payments are a thing of the past. Your tomorrow's motoring dreams come true to-day at Nash showrooms everywhere. So now! Your local Nash dealer invites you to test-drive "the sweetest little BIG CAR in the world" ... the NASH METROPOLITAN.

Imagine! Glamorous hardtop and convertible models priced to fit penny-pinching budgets ... yet elegantly styled to flatter the most luxurious of tastes.

### WHO DID NASH BUILD THE METROPOLITAN FOR?

We built it for young married couples, living on a budget, who want a beautiful, new, factory-fresh car, full of pep and personality ... youngsters of 50 or 60 who want economical motoring with all the comforts of a big, costly car ... wives in the suburbs whose husbands take the family car to the office all day ... In fact, this is the car for everybody!

The Metropolitan is available in two stunning models — Hardtop and convertible — in new, stylish two-tone colour schemes. It features the famous Austin A-40 overhead valve engine, mounted in Nash's strong, dependable Airflyte Utilized Construction ... lowest full price, with all extras included ... lowest down payment ... lowest operating costs.

### WHAT EXTRAS ARE INCLUDED IN THE LOW, LOW PRICE?

Your Metropolitan comes complete with radio, Weather Eye Conditioned Air System, directional signals, continental rear tire mount, two inside sun visors, cigarette lighter, foam cushion and nylon and leather upholstery. Yes, you get all this included in the low, low price!

### WHAT HAPPENED ON THE RALEIGH 24 HOUR TESTS?

Two stock Metropolitans—after being driven 800 miles from the factory to the Speedway at Raleigh, N.C.—completed grueling 24-hour speed, endurance, and economy tests. On the non-stop economy run, the Metropolitan averaged 34.8 m.p.h., at 51.97 miles per gallon!

The other car completed 1453 miles at an average speed of 62 m.p.h., during 24 actual running hours. These tests were supervised by the National Association for Stock Car Auto Racing, and they prove beyond doubt the Metropolitan is rugged, comfortable, fast, yet wonderfully economical to run.

## HIGH FREIGHTS CAUSE LOSS OF MARKETS FOR B.C. LUMBER

In his report to the Interior Lumber Manufacturers' Association convention in Penticton last week, H. B. Collins, chairman of the marketing and transportation committee, stressed the importance of transportation costs to the interior lumber operator.

He stated that percentage increases in freight rates have virtually destroyed certain markets which were once enjoyed by B.C. lumber operators.

Reviewing these increases, Mr. Collins said there was a 21 percent boost on April 8, 1948. On October 1, 1949, mountain differential was removed. There was a 20 percent increase on June 18, 1950, a 12 percent boost on July 26, 1951, 17 percent increase on February 11, 1952, 9 percent increase on January 1, 1953 and a 16 percent increase on March 16, 1953.

In his report, Mr. Collins wrote: "For many years the lumber industry has been favored with a seller's market at home and abroad, in which it was not difficult to operate profitably, despite the experience of an unsatisfactory freight rate schedule. During the same period, the railways also enjoyed buoyant years for the same transient reasons."

"All that is now over, the lumber and transportation industries must both adjust themselves to new conditions. Today it is a highly competitive market. The days of any lumber at any price are over. Although nobody knows exactly what events are going to take place this year."

## 247 Persons Benefitted From Red Cross Blood Service Here In 1953

### Lack Of Trust Snag In Labor Management Talks

Outstanding features of the negotiations with the IWA were undoubtedly the lack of trust of both parties, K. R. Martin, industrial relations officer, told delegates at the annual Interior Lumbermen's Association convention, in Penticton last week.

"It resulted in no real bargaining taking place until just prior to the strike, a long and costly strike, the legal aspects evolving from the strike, the three de-certifications, one of which was a change in certification to the lumber and sawmill workers, and finally, the terms of settlement," he said.

Interior lumber industry cannot operate in a vacuum uninfluenced by conditions around it, declared Mr. Martin, and while ability to pay is a strong and vital argument, it does not eliminate the effect of other factors, such as the general pattern of wages and wage increases.

"In comparison to other parts of the wood industry and to business in general," Mr. Martin continued, "the wage increases granted over the years of the contract appear reasonable and in the eyes of many experienced in the labor field, below what will be the general pattern."

"The advantage of a long period without the disrupting influences of collective bargaining should not be forgotten. The return in terms of production and the ability to plan ahead will mean substantial savings to the operator."

Marvin Syer informed members that he will contact local merchants as soon as possible informing them what B.C. firms are going to participate in the show.

"We must all get behind this thing 100 percent," commented Board of Trade president Edgar Dewdney.

Karl Maria von Weber, noted German composer, was born at Eufin, near Lubeck, on December 18, 1786. One of his most successful works is his well-beloved "Der Freischütz."

The amount of blood used in any particular locality is only incidental to the real service that is being rendered by the Red Cross free blood transfusion service, having in mind the whole blood and blood plasma requirements for our armed forces and patients in Veterans' hospitals in addition to the blood supplied to the Department of National Health and Welfare for the manufacture of gamma globulin to fight polio.

However, it is interesting to note that 247 persons received 436 pints of blood through this service at Penticton Hospital during 1953. This contribution, no doubt, represents a saving of lives and the alleviation of much suffering and quick convalescence in other cases.

Since records have been kept in regard to assistance given to children from our district through the Red Cross Crippled Children's Assistance Committee, in British Columbia 51 known cases have been registered from Penticton, of which eleven were registered in 1953.

### EXPANDING

SUMMERLAND: Continual satisfaction is shown in Summerland's municipal electrical department with applications for new connections at every council meeting. On Tuesday eight new installations were approved. These were G. G. Young, H. A. Kenyon, C.P.R. at Summerland, J. E. Millmore, W. Birtles, N. O. Solly, T. M. Croil and Mrs. C. J. Amm.

### Scotchlite Sign To Point Way To Hospital

A sign complete with scotch-lit is being erected for Carmi avenue corner to point in the direction of the hospital, F. G. Pye told Board of Trade members last Thursday.

He was replying to a suggestion from R. J. Pollock who thought such a sign would be beneficial.

### Summerland Council Proud Of Asphalt Plant

SUMMERLAND: Summerland council is quite proud of its asphalt plant and a request has been received from Oliver to visit it. Representatives from Peach-

land have been down to it as well.

Councillor F. M. Stewart, chairman of roads, indicated that an attempt will be made to continue the asphalting program and put down four and a half miles

within the municipality again this year.

Attention will be given to raising and surfacing Giant's Head road from the switching station to Shield's place, with provision for a footpath on the west side.

EDUCATION (by grade and province)..... A.O.S.....

You must be 17 but not yet 25, and have Junior Matriculation,  
the equivalent or better.

When applying, bring 1) Birth Certificate 2) Proof of Education

How about you? New courses are starting for Air Crew training.  
For details, see the RCAF Career Counsellor at the address in the coupon—or mail the coupon today!

**Royal Canadian Air Force**

P/O AL PULPER, 27, of Beauport, Manitoba, enrolled as an Airman in 1949 and re-mustered to Air Crew within a few months. He graduated as a Radio Officer in October 1950, and soon found himself flying in the far Arctic with an RCAF Photographic Squadron. In January 1953 he was transferred to 412 Transport Squadron and has since flown to such places as Germany, Arabia, India, Java, Japan, Fiji, Australia, Honolulu. At present he is a Radio Officer on the C-5 aircraft taking Prime Minister Louis St. Laurent on his goodwill visit to other countries.

A Special RCAF Career Counsellor will be at the Canadian Legion Building, Penticton,  
every Monday 12 noon to 6 p.m.

## SUCCESSFUL PRESENTATION BY OLIVER COMMUNITY PLAYERS

OLIVER—In presenting Kaufman and Hart's comedy "George Washington Slept Here" the Community Players of Oliver maintained the high standard they had set in former productions. Enthusiastic audiences enjoyed the presentation on Friday and Saturday evening last week in the auditorium of the South Okanagan high school.

Mona Hodson, a newcomer in the Players' ranks, gave a sparkling performance sharing the leading roles with her "husband" T. O. MacLaughlin, T.C. as the would-be rustic husband of a city-bred wife. Both players rolled through their lines from the rising curtain to the closing scene, with finesse and perspicacity.

An excellent supporting cast combined to produce a program of hilarious fun. Bruce Echlin in the part of Mr. Kimber, general "handy man", sustained his role so perfectly, even his best friends couldn't tell him. Hugh Porteous as the fabulously wealthy old humbug, Uncle Stanley, raised roars of laughter from appreciative listeners.

Esther Bruce, in the new guise of a brat of a boy, displayed great versatility in an amusing portrayal of an objectionable young upstart.

The charming young lovers, Madge and Steve, ably carried by Allison MacQuarrie and Clayton Perry added a pleasing touch to the domestic set-up of the erstwhile Washington home.

Cy Overton as the pugnacious neighboring farmer put over his usual impressive entrances, followed by speeches biting at the teeth of a mad dog.

Dora Gyles as the blase little woman of the theatrical world added her measure of laughter and gaiety to the show.

Members of the cast taking minor parts rounded out the production and all displayed talent which gave the play as a whole the polish and high standard for which the director, James Argue, works so assiduously.

Mr. Argue appeared on the stage for a fleeting moment as an actor. Kern Schorn gave a capable interpretation of the sugar-tongued neighbor, and added a typical touch of local color to the story.

Nan Dewick and Bara Gud-laugsson, as maids, added the usual touch of humor maids invariably add to a play; and guests at the house party, Elsie Nyfeler, Gerry Elliott and Walter Hirtle completed in pleasing style the cast of a first rate performance.

The director, Mr. Argue, and production manager, Mrs. Audrey Millar, enjoyed the help of a staff of capable assistants, in work behind the scenes — Hugh Porteous as assistant director, stage managers, William Roburn and Frank Selig; thunder and lightning by Austin Lamb, president of the "Players".

Others assisting in the production arrangements were: Marie Mandau, Mary Brydon, Pamela Richardson, Bettina Somers, Jeanette Ritter, Norma Selig, Gerry Elliott, Nan Dewick and Bob Fleming.

Play lovers in the Southern Okanagan are indebted to Mr. Argue and his players for the time and energy expended in providing the district with dramatic entertainment of top-notch quality.

Plans are under way for future engagements, and to date bookings have been made at Omak on March 12, and in Grand Forks on April 2—K.B.

THREE VERY DIFFERENT opinions were registered at Montreal's railway station recently by the three Troelstra girls from Holland. Anke, Jannie and Bertha were caught by the camera just before starting out on the last leg of the long journey from their homeland to Terrace, B.C. The three little girls are making the transcontinental train trip with their parents. Their father was a shoemaker in Hoensbroek, Holland.

## The Member Reports

By O. L. Jones, M.P. for Yale

A National Health Insurance scheme is eventually coming to Canada but the minister of health will not indicate just when that will be merely contenting himself by saying "that it will be introduced in the not-too-distant future." It is generally felt that a federally backed health insurance plan is inevitable because of the limitations of voluntary schemes now in effect. It is interesting to note that, by the end of 1952, 5½ million Canadians were covered by Hospital Insurance, four million by surgical expense insurance and three million by medical expense insurance. Canadians are already spending about \$675 million annually on health matters. Of this total, about one-half is paid out by either provincial or federal government. This would take the form of hospital grants, clinics, equipment and other specialized services.

The new Criminal Code contains several clauses that increase the power of constables to make arrests with and without warrant and over and above the instructions already incorporated in a valid warrant. It has also been broadened to define, for instance, "vagrancy". According to the Act, a person is a "vagrant" who, not having any apparent means of support, lives without employment. The old Criminal Code defines "vagrancy" as follows:

"Everyone is a loose idle and disorderly person who, not having any visible means of maintaining himself, lives without employment". The objection by members of the committee was to the omission of the words "loose, idle and disorderly". In the New Act, claiming that those words made a distinction between a man or a woman living by their wits — in other words, a hustler or a society — and the worker who is temporarily out of funds and out of a job. Mr. Diefenbaker, who is a lawyer, claimed that the change in the code would make the lack of money a passport to prison. As the "Winnipeg Tribune" pointed out, in spite of the protests, the usual government rubber stamp backed Mr. Garson to the limit. It seems rather unfair that a man who is temporarily out of work and money is automatically, under this Act, judged a "vagrant".

There are other parts of the Act causing a great deal of unrest among organized workers in Canada, mainly those clauses intended to deal with strikes and work stoppages. These contentious clauses have been laid aside to a later date before being dealt with. Providing that later date is not in the hectic closing days of the session, the precaution to deal with these, as a group, is a good one.

The ten year revision of the Bank Act is now taking place. Actually, there are very few changes suggested by the government but it is possible that when this Bill goes to committee several substantial changes may take place. One obvious one is to change the Act to allow the banks to loan money on mortgages in order to be able to carry out their function under the new Housing Act. This latter Act has already passed through the House after a severe battle. It still remains that a person must have an income of over \$300 a month before he can qualify for a loan under this new act. I pointed out in my radio talk last week, there is a clause in this act under which

subsidized low-rental homes can be provided. This is a matter of cooperation between the municipalities and the two federal governments. Wherever there is a need of homes for people earning less than the \$3,600, I hope the municipalities will step into the breach and, through the combination mentioned, attempt to provide adequate housing.

The serious situation is regard to the marketing of onions and potatoes has been brought to my attention and I have already taken the matter up with the Hon. James G. Gardiner, the minister of agriculture. It is becoming more and more difficult to understand the actions of our friends to the south in flooding the Canadian market with low priced commodities in spite of various agreements that have been arrived at between our two countries. The American competition has not only hurt our fruit and vegetable growers, but has practically ruined the textile industry. It must have been this situation that caused the Hon. Paul Martin, when speaking in New York on March 9, to inform the Americans that we Canadians are very worried about the long term commercial policies of the United States, pointing out that Canada depends to a considerable extent on foreign trade. A remedy may be found for our problems when a Canadian-American joint meeting on trade and economic affairs takes place on the 15th of this month. The meeting will provide an opportunity for our two governments to consider at the ministerial level those steps that can properly be taken to improve the economic relations and to encourage the flow of trade between our two countries.

Mr. Martin expressed a note of optimism when he said that the Canadian government forecast a capital expenditure program of \$5,800,000,000. This will be a three percent increase over last year's peace time record and, therefore, our high level of economic activity will continue through 1954 and for some time to come.

The vocational training program that has been approved by the government contains a very welcome innovation whereby men and women who are physically handicapped or, as often referred to as "totally disabled" will be given fresh hope. The government proposes, on a 50-50 basis with the provinces, to provide adequate schools and instructors to teach these handicapped people arts and crafts that they are capable of carrying out according to the limitation of their particular disability.

Experiments already tried along these lines have proved that people who had been regarded as "totally disabled" have been taught to become self-supporting thus maintaining their moral and mental status as good citizens. The removal of the

## Labor Warned To Use Commonsense In Demands On Lumber Industry

Competition in world markets is severe and may not get better. L. C. Thomas, of Vancouver, president of the National Retail Lumbermen's Council of Canada, told delegates to the annual convention of the Interior Lumbermen's Association convention in Penticton last week.

"I would suggest to leaders of labor who so continuously harass and who make such unreasonable demands upon our industry that they should study these facts and exercise some moderation of common sense when making demands that conditions do not justify."

Mr. Thomas declared that calling strikes never did anyone any good, least of all the worker who often has to work many years before the increase he has obtained makes up the amount he has lost in wages through striking.

"I sincerely hope that the time is not too far distant when strikes are a thing of the past," he continued. "they should be quite unnecessary and viewed in their proper perspective are clearly shown to be a major and disastrous threat to the welfare of the whole community."

Mr. Thomas sounded a warning that a grave danger exists that labor can "demand" itself out of employment through being uninformed by its leaders on the true facts of conditions as they exist in actuality.

He said that labor sometimes mistakenly points to published results of large organizations with huge investments in choice stands of timber, mills, pulp plants, shipping and fishing interests and assert that the trading results are indicative of the general prosperity of industry.

"Let them face the facts that there is a point beyond which production costs must not go if we are to successfully meet the existing competition in markets that we hitherto have been servicing," Mr. Thomas concluded.

## Third Power Line To Garnett Valley

SUMMERLAND — Councillor J. R. Butler, of the electric light committee, reported that a third line was being put into Garnett Valley to balance the load, and the line over Giant's Head was completed to service the Box Factory. Prairie Valley has taken off the West Summerland cable and put on with Trout Creek, it was noted.

No lumber is available at the local mill, Mr. Butler said, to build the powerhouse extension, so will be sought elsewhere.

Frustration that has been an added handicap will prove invaluable and every member of the House approved these proposals. I trust all provincial governments will give wholehearted support to this new venture.

## I. H. Solly Stresses Value Of Trade Boards

SUMMERLAND — I. H. Solly, retiring president of Summerland board of trade, spoke to the annual dinner meeting on Thursday of the value of boards of trade, at the local, provincial and federal level.

He said that their importance was in an influential field and something in the nature of a sounding board, whereby opinions of various communities was ascertained.

He challenged the people of Summerland to support the board so that the community may be proud of it as it has been in the past.

Ancient Greek chronology was measured in olympiads — four-year cycles corresponding to the Olympic games.

"Perhaps I might appear to be taking a gloomy view of conditions but these are facts, Mr. Chairman, and should be accepted as such lest many people including labor leaders obtain wrong and erroneous opinions."

**Those were the days**

Remember when Grandfather kept a cow for his milk? In those days, his cash requirements were small because he bartered his services for his family needs.

Today—with our tremendous industrial growth, our needs have increased, but our purchases are now made with cash or credit.

Good management and sound budgeting are the keys for smooth finances. Occasionally the pattern breaks, however, due to illness or emergency. This is when wise borrowing can then protect one of the greatest assets enjoyed in family life—good credit standing in the community.

We have learned to use the experience of others to help us adjust to the world of today. Read our free booklet, "Money Management, Your Budget", available at the nearest HFC branch office, or by writing our Consumer Education Department, 80 Richmond Street West, Toronto, Ontario.
